World Religions 7th Edition By Matthews Warren 2012 Paperback:

Religion in Japanese Daily Life David C. Lewis, 2017-09-22 Are Japanese people religious and if so in what ways David Lewis addresses this question from the perspective of ordinary Japanese people in the context of their life cycles and explores why they engage in religious activities He not only discusses how Japanese people engage in different religious practices as they encounter new events in their lives but also analyses the attitudes and motivations behind their behaviour Activities such as fortune telling religious rites in the workplace ancestral rites and visits to shrines and temples are actually engaged in by many people who view themselves as non religious but express their motivations in terms other than the conventional religious ones This book outlines the religious options available and assesses why people choose particular religious activities at various times in their lives or in specific circumstances The author challenges some widespread assumptions about religion in urban and industrial contexts and also shows how some of the underlying motivations behind Japanese behaviour are expressed both in religious and non religious forms

Animals in Religion Barbara Allen, 2016-06-15 *Animals in Religion* explores the role of animals within a wide range of religious traditions Exploring countless stories and myths passed down orally and in many religious texts Barbara Allen herself a practicing minister offers a fascinating history of the ways animals have figured in our spiritual lives whether they have been Christian Jewish Muslim or any number of lesser known religions Some of the figures here will be familiar such as St Francis of Assisi famous for his accord with animals or that beloved remover of obstacles Ganesha the popular elephant god in the Hindu pantheon Delving deeper Allen highlights the numerous ways that our religious practices have honored and relied upon our animal brethren She examines the principle of ahimsa or nonviolence which has Jains sweeping the pathways before them so as not to kill any insects as well as the similar principle in Judaism of *tsar ba alei chayim* and the notion in some sects of Islam that all living creatures are Muslim From ancient Egypt to the Druids to the indigenous cultures of North America and Australia Allen tells story after story that emphasizes the same message all species are spiritually connected
