Rehabilitation Work Hannah Graham, 2016-05-26 Conversations about rehabilitation and how to address the drugs crime nexus have been dominated by academics and policymakers without due recognition of the experience and knowledge of practitioners Not enough is known about the cultures and conditions in which rehabilitation occurs Why is it that significant numbers of practitioners are leaving the alcohol and other drugs field while disproportionate numbers of criminal justice practitioners are on leave *Rehabilitation Work* provides a unique insight into what happens behind the closed doors of prisons probation and parole offices drug rehabs and recovery support services drawing on research from Australia This book is among the first to provide a dedicated empirical examination of the interface between the concurrent processes of desistance from crime and recovery from substance misuse and the implications for rehabilitation work Hannah Graham uses practitioner interviews workforce data and researcher observations to reveal compelling differences between official accounts of rehabilitation work and what practitioners actually do in practice Practitioners express a desire to be the change rather than being subject to change actively co producing progressive reforms instead of passively coping with funding cutbacks and interagency politics Applied examples of how practitioners collaborate lead and innovate in the midst of challenging work are complemented with evocative illustrations of insider humour and professional resilience This book is a key resource for students academics and practitioners across fields including criminology and criminal justice social work psychology counselling and addiction treatment

Reimagining Rehabilitation Lol Burke, Steve Collett, Fergus McNeill, 2018-09-17 This book aims to make the case for and provide some of the resources necessary to reimagine rehabilitation for twenty first century criminal justice Outlining an approach to rehabilitation which takes into account wider democratic processes political structures and mechanisms of resource allocation the authors develop a new model of rehabilitation comprising four forms personal legal social and moral Personal rehabilitation concerns how individuals make their journeys away from offending and towards reintegration and how they can be supported to do so whilst legal rehabilitation concerns the role of the criminal courts in the process of restricting and then restoring the rights and status of citizens Moral rehabilitation is concerned with the ethical basis of the interactions between the individual who has offended and the people and organisations charged with providing rehabilitative services Social rehabilitation explores the crucial contribution civil society can make to rehabilitation exploring this through the lens of citizenship community and social capital Drawing on the conceptual insights offered in the late Stan Cohen s seminal work

Visions of Social Control and specifically his insistence that modern social institutions can aspire to doing good and doing justice the authors argue that these values can underpin a moral pragmatism in designing social interventions that must go beyond achieving simply instrumental ends Reimagining rehabilitation within the context of social action and social justice this book is essential reading for students and scholars alike particularly those engaged with criminal justice policy probation and offender rehabilitation *The Enforcement of Offender Supervision in Europe* Miranda Boone, Niamh Maguire, 2017-11-09
