Kraemer,Charldean Newell,1990 *Bureaucracy's Masters and Minions* Eleanor L. Schiff,2020-07-23 In *Bureaucracy's Masters and Minions* The Politics of Controlling the U.S. Bureaucracy the author argues that political control of the bureaucracy from the president and the Congress is largely contingent on an agency's internal characteristics of workforce composition workforce responsibilities and workforce organization Through a revised principal-agent framework the author explores an agent-principal model to use the agent as the starting point of analysis The author tests the agent-principal model across 14 years and 132 bureaus and finds that both the president and the House of Representatives exert influence over the bureaucracy

but agency characteristics such as the degree of politization among the workforce the type of work the agency is engaged in and the hierarchical nature of the agency affects how agencies are controlled by their political masters In a detailed case study of one agency the U S Department of Education the author finds that education policy over a 65 year period is elite led and that that hierarchical nature of the department conditions political principals influence This book works to overcome three hurdles that have plagued bureaucratic studies the difficulty of uniform sampling across the bureaucracy the overuse of case studies and the overreliance on the principal agent theoretical approach
