Computing Attitude and Affect in Text: Theory and Applications James G. Shanahan, Yan Qu, Janyce Wiebe, 2006-01-17 Human Language Technology HLT and Natural Language Processing NLP systems have typically focused on the factual aspect of content analysis Other aspects including pragmatics opinion and style have received much less attention However to achieve an adequate understanding of a text these aspects cannot be ignored The chapters in this book address the aspect of subjective opinion which includes identifying different points of view identifying different emotive dimensions and classifying text by opinion Various conceptual models and computational methods are presented The models explored in this book include the following distinguishing attitudes from simple factual assertions distinguishing between the author s reports from reports of other people s opinions and distinguishing between explicitly and implicitly stated attitudes In addition many applications are described that promise to benefit from the ability to understand attitudes and affect including indexing and retrieval of documents by opinion automatic question answering about opinions analysis of sentiment in the media and in discussion groups about consumer products political issues etc brand and reputation management discovering and predicting consumer and voting trends analyzing client discourse in therapy and counseling determining relations between scientific texts by finding reasons for citations generating more appropriate texts and making agents more believable and creating writers aids The studies reported here are carried out on different languages such as English French Japanese and Portuguese Difficult challenges remain however It can be argued that analyzing attitude and affect in text is an NLP complete problem Journal of Property Management ,2003 **Water** ,2007 **Green Building Products** Alex

Wilson, Mark Piepkorn, Nadav Malin, 2005 Interest in sustainable green building practices is greater than ever Whether concerned about allergies energy costs old growth forests or durability and long term value homeowners and builders are looking for ways to ensure that their homes are healthy safe beautiful and efficient In these pages you ll find descriptions and manufacturer contact information for more than 1 400 environmentally preferable products and materials from ag fiber panels to zero VOC paints All phases of residential construction from sitework to flooring to renewable energy are covered Products are grouped by function and each chapter begins with a discussion of key environmental considerations and what to look for in a green product Categories of products include Sitework and landscaping Outdoor structures Decking Foundations footers and slabs Structural systems and components Sheathing Exterior finish and trim Roofing Doors and windows Insulation Flooring and floor coverings Interior finish and trim Caulks and adhesives Paints and coatings Mechanical systems HVAC Plumbing electrical and lighting Appliances Furniture and furnishings Renewable energy Distributors and retailers A miscellaneous section also lists products for hazardous materials testing and remediation insect control recycling and wood products certification An index of products and manufacturers makes for easy navigation There is no more comprehensive resource for both the engaged homeowner as well as all those who design and build homes
