World Report 2013 Events Of 2012 Human Rights Watch World Report:

Norms in Conflict Anchalee Rüland, 2022-06-14 The people of Myanmar were struck by three major human rights disasters during the country's period of democratization from 2003 to 2012: the 2007 Saffron Revolution, the aftermath of Cyclone Nargis in 2008, and the 2012 Rakhine riots which would evolve into the ongoing Rohingya crisis. These events saw Myanmar's government categorically labeled as an offender of human rights, and three powerful Southeast Asian member states—Indonesia, Thailand, and Malaysia—responded to the violations in very different ways. In each case, their responses to the crises were explicitly shaped by norm conflict, which may be understood as a tension between international and domestic norms. Their reactions were compelled by a need to address conflicting domestic and international expectations for norm compliance regarding human rights protection and non-interference in internal affairs. In *Norms in Conflict: Southeast Asia's Response to Human Rights Violations in Myanmar*, Anchalee Rüland makes sense of state action that occurs when a governing body is faced with a circumstance that is at once in line with and contrary to its own governing policies. She defines five different types of response strategies to situations of norm conflict and examines the enabling factors that lead to each strategy. Domestic norms are known to evolve as a country's values change over time, yet Rüland argues that the old and new norms may also coexist. Knowledge of the underlying political context is crucial for those seeking a solid understanding of state behavior. *Norms in Conflict* challenges the conventional understanding of the logic of consequences in determining state behavior, advancing constructivist theory and establishing a provocative new conversation in international relations discourse.

State Fragility Around the World Laurie A. Gould, Matthew Pate, 2016-02-24 Failed and fragile states often govern through the criminalization of otherwise inconsequential or tolerated acts. These weak states also frequently use kidnapping, murder, and other violent or oppressive tactics to maintain order and stay in power. *State Fragility Around the World: Fractured Justice and Fierce Reprisal* analyzes the path to state failure.

Prosecuting Sexual and Gender-Based Crimes at the International Criminal Court Rosemary Grey, 2019-04-11 Detailed study of the ICC's practice in prosecuting gender-based crimes current up to the ICC Statute's twentieth anniversary in 2018. [The Routledge Handbook of Chinese Citizenship](#) Zhonghua Guo, 2021-11-29 Two assumptions prevail in the study of Chinese citizenship: one holds that citizenship is unique to the Western political culture and China has historically lacked the necessary conditions for its development; the other implies that China is an authoritarian regime that has always been subject to autocratic power in which citizens and citizenship play a limited role. This volume negates both assumptions. On the one hand, it shows that China has its own unique and rich experiences of the emergence, development, rights obligations, acts, culture, education, and sites of citizenship, indicating the need to widen the scope of citizenship studies to include non-Western societies. On the other hand, it aims to show that citizenship has been a core issue running through China's political development since the modern period, urging scholars to bring citizenship into consideration in the study of Chinese politics. This Handbook sets a new agenda for

citizenship studies and Chinese politics Its clear accessible style makes it essential reading for students and scholars interested in citizenship and China studies

Transitional Justice and the Prosecution of Political Leaders in the Arab Region Noha Aboueldahab, 2017-10-05

The dramatic uprisings that ousted the long standing leaders of several countries in the Arab region set in motion an unprecedented period of social political and legal transformation The prosecution of political leaders took centre stage in the pursuit of transitional justice following the Arab Spring Through a comparative case study of Egypt Libya Tunisia and Yemen this book argues that transitional justice in the Arab region presents the strongest challenge yet to the transitional justice paradigm This paradigm is built on the underlying assumption that transitions constitute a shift from non liberal to liberal democratic regimes where often legal measures are taken to address atrocities committed during the prior regime The book is guided by two principal questions first what trigger and driving factors led to the decision of whether or not to prosecute former political leaders And second what shaping factors affected the content and extent of decisions regarding prosecution In answering these questions the book enhances our understanding of how transitional justice is pursued by different actors in varied contexts In doing so it challenges the predominant understanding that transitional justice uniformly occurs in liberalising contexts and calls for a re thinking of transitional justice theory and practice Using original findings generated from almost 50 interviews across 4 countries this research builds on the growing critical literature that claims that transitional justice is an under theorised field and needs to be developed to take into account non liberal and complex transitions It will be stimulating and thought provoking reading for all those interested in transitional justice and the Arab Spring

Silent Territory Fredrik Laurin, Lars Schmidt, 2015-02-04

IT S AFRICA S LAST COLONY BUT NOBODY TALKS ABOUT IT On a Saharan desert strip lies a country of enormous natural riches but whose inhabitants are destitute Western Sahara has been torn apart by close to forty years of war occupation and international power struggles Half of the population lives in Algerian refugee camps But the world turns a blind eye The forgotten conflict is closely linked

to all of us we literally have it in our bodies Western companies buy Sahrawi phosphate fish and fruit from the Moroccan occupiers in breach of UN resolutions Investigative reporters Fredrik Laurin and Lars Schmidt have visited refugee camps and presidential palaces met with activists and the UN envoy and travelled through endless deserts in search of answers They show how a small elite controls both the fishing and vegetable industries and how Swedish and international companies are deeply involved in the exploitation of Western Sahara Using isotope analysis they follow the phosphate from the Bou Craa mine to the aisles of our supermarkets Will the Sahrawis ever get their freedom Or are those who profiteer from the occupation too powerful

Mubarak stepped down as the president of Egypt after weeks of protest. It highlights the relationship between the presidency and the army to show that contrary to popular belief the presidency grew gradually stronger at the expense of other institutions especially the army and reached its apogee under Mubarak. Part Two From Revolution to Coup d'Etat covers the critical stages from when the military junta took over the governing of Egypt as the Supreme Council of the Armed Forces (SCAF) and the election of Morsi up until the coup to overthrow his presidency. Using a democratic transition theory perspective, Azmi Bishara explains the failure of the democratic transition and how it has impacted on Arab revolutions ever since. Written while the revolutions were taking place, this book conveys a sense of immediacy and urgency as Bishara makes wide ranging assessments with many of his forecasts corroborated in later years. The book is renowned for its use of primary source material including interviews, statistics and public opinion polls, thus preserving the memory of the revolution and remaining one of the most comprehensive reference books on the subject to date.

Contemporary Slavery Annie Bunting, Joel Quirk, 2018-05-15. Military Assistance on Request and the Use of Force Erika De Wet, 2020-03-26. In countries such as Syria, Iraq, South Sudan and Yemen, internationally recognized governments embroiled in protracted armed conflicts and with very little control over their territory have requested direct military assistance from other states. These requests are often accepted by the other states despite the circumvention of the United Nations Security Council and extensive violation of international humanitarian law and human rights. In this book, Erika De Wet examines the authority entitled to extend a request for or consent to direct military assistance as well as the type of situations during which such assistance may be requested, notably whether it may be requested during a civil war. Ultimately, De Wet addresses the question of if and to what extent the proliferation of military assistance on the request of a recognized government is changing the rules in international law applying to the use of force.

Human Dignity Edward Sieh, Judy McGregor, 2017-05-02. This book examines the concept of dignity from a variety of global perspectives. It scrutinizes how dignity informs policy and practice and is influenced by international and domestic law, human rights values and domestic politics. An exciting collection of essays, this edited volume provides an analysis of human rights as they are experienced by real people who have in many cases been forced to take action to further their own interests. Readers will discover an extensive range of issues discussed, from the internet, climate change and disabilities to globalization, old age and migrants' rights. The last section deals with the impact of various issues on indigenous and migrant populations, specifically violence in Columbia, border issues in Tijuana, women's and children's rights violations and the complex problems experienced by refugees, particularly in regards to citizenship. The interdisciplinary nature of this work makes it an invaluable read for scholars of Health Studies, Law, Human Rights, Sociology and Politics.
