**Places of Encounter, Volume 1** Aran MacKinnon, 2018-04-27 Places of Encounter provides a place based approach to world history focusing on specific locations at critical moments when human history was transformed as a result of encounters physical political cultural intellectual and religious Original contributed essays by leading academics in the field explore places from Hadar to Xi an Salvador to New York and numerous other locations that have produced historical shockwaves and significant global impact throughout history With a chronologically organized table of contents each chapter dissects a particular moment in history with personal commentary from each contributor a narrative of the location s historical significance at the time and a section on significant global connections Primary sources and discussion questions at the end of each chapter allow students a view into the lives of individuals of the time Students will experience the narrative of historic individuals as well as modern scholars looking back over documentation to offer their own views of the past providing students with the perfect opportunity to see how scholars form their own views about history The World Felipe Fernandez-Armesto, 2010-10-26 For today s busy student we ve created a new line of highly portable books at affordable prices Each title in the Books a la Carte Plus program features the exact same content from our traditional textbook in a convenient notebook ready loose leaf version allowing students to take only what they need to class As an added bonus each Books a la Carte Plus edition is accompanied by an access code to all of the resources found in one of our best selling multimedia products Best of all Our Books a la Carte Plus titles cost less than a used textbook The World interweaves two stories of our interactions with nature and with each other The environment centered story is about humans distancing themselves from the rest of nature and searching for a relationship that strikes a balance between constructive and destructive exploitation The culture centered story is of how human cultures have become mutually influential and yet mutually differentiating Both stories have been going on for thousands of years We do not know whether they will end in triumph or disaster There is no prospect of covering all of world history in one book Rather the fabric of this book is woven from selected strands Readers will see these at every turn twisted together into yarn stretched into stories Human focused historical ecology the environmental theme will drive readers back again and again to the same concepts sustenance shelter disease energy technology art The last is a vital category for historians not only because it is part of our interface with the

rest of the world but also because it forms a record of how we see reality and of how the way we see it changes In the global story of human interactions the cultural theme we return constantly to the ways people make contact with each another migration trade war imperialism pilgrimage gift exchange diplomacy travel and to their social frameworks the economic and political arenas the human groups and groupings the states and civilizations the sexes and generations the classes and clusters of identity

**A World History of War Crimes** Michael S. Bryant, 2015-12-17 A World History of War Crimes provides a truly global history of war crimes and the involvement of the legal systems faced with these acts Documenting the long historical arc traced by human efforts to limit warfare from codes of war in antiquity designed to maintain a religiously conceived cosmic order to the gradual use in the modern age of the criminal trial as a means of enforcing universal norms this book provides a comprehensive one volume account of war and the laws that have governed conflict since the dawn of world civilizations Throughout his narrative Michael Bryant locates the origin and evolution of the law of war in the interplay between different cultures While showing that no single philosophical idea underlay the law of war in world history this volume also proves that war in global civilization has rarely been an anarchic free for all Rather from its beginnings warfare has been subject to certain constraints defined by the unique needs and cosmological understandings of the cultures that produce them Only in late modernity has law assumed its current international humanitarian form The criminalization of war crimes in international courts today is only the most recent development of the ancient theme of constraining when and how war may be fought

**World History** Eric Vanhaute, 2013-07-24 World History An Introduction provides readers with the knowledge and tools necessary to understand the global historical perspective and how it can be used to shed light on both our past and our present A concise and original guide to the concepts methods debates and contents of world history it combines a thematic approach with a clear and ambitious focus Each chapter traces connections with the past and the present to explore major questions in world history How did humans evolve from an endangered species to the most successful of them all How has nature shaped human history How did agricultural societies push human history in a new direction How has humankind organized itself in ever more complex administrative systems How have we developed new religious and cultural patterns How have the paths of The West and The Rest diverged over the last five centuries How at the same time has the world become more interconnected and globalized How is this world characterized by growing gaps in wealth poverty and inequality Sharp and accessible Eric Vanhaute's introduction to this exciting field demonstrates that world history is more of a perspective than a single all encompassing narrative an instructive new way of seeing thinking and doing It is an essential resource for students of history in a global context

**History Textbooks and the Wars in Asia** Gi-Wook Shin, Daniel C. Snider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy Still the region cannot escape from the burden of history This book examines the formation of historical memory in four Northeast Asian societies China Japan South Korea and

Taiwan and the United States focusing on the period from the beginning of the Sino Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951 The contributors analyse the recent efforts of Korean Japanese and Chinese scholars to write a common history of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements In doing so they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided and often conflicting historical memories The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives Through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in the region This book will be essential reading for students and scholars of Asian history Asian education and international relations in East Asia
