L'écriture du bonheur dans le roman contemporain Ruth Amar, 2011-01-18

Through the ages the pursuit of Happiness has been at the heart of the needs and desires each individual would seek to fulfill while as a concept Happiness has always resonated strongly in poetic as well as philosophical sociological and psychological contexts But what about Happiness today in a world dominated by technology driven by productivity and dictated by efficiency Does Happiness still feature in contemporary fiction in any significant way Or has it perhaps gone underground adopting different guises Would we still call that duty of happiness that Pascal Bruckner saw as present at the second half of the twentieth century a relevant force today Or has it waned perceptibly The articles brought together in this volume seek to work out answers to these and similar questions creatively addressing the imminent risks but also eagerly following up the intriguing possibilities one encounters when interrogating Happiness in the contemporary novel Originally based on an international conference organized at the University of Haifa Israel in May 2010 the volume is structured around the axes we found useful as a basis for the various approaches towards Happiness in Europe and the historical and social events that influenced the writing of Happiness as they defined the 20th century and have impacted on the 21st the Holocaust the Soviet dystopia consumerism postmodernism everyday life the various as yet unarticulated new modes of life they have given rise to and so on A new writing of happiness then At the very least this volume targets the contemporary novel without wanting to solidify works instead taking into account the fluctuations Happiness has been subjected to and the diversity and especially the paradoxes it has created while we have been keen to preserve a precise reading of the texts and have felt compelled to respect and preserve the particular features that make the writings of the authors we focus on stand out

Thème philosophique aussi bien que poétique sociologique et psychologique le bonheur défie la mesure de chacun N'est-il pas vrai que nous autres hommes nous disons tous être heureux Platon Or dans notre monde actuel dominé par la technique la recherche outrance du productif et de l'efficacité qu'en est-il du bonheur Est-il encore présent aux critiques romanesques contemporaines Sous quelles formes se présenterait sa recherche Ce devoir de bonheur propre la deuxième moitié du XXe siècle dont parle Pascal Bruckner continue-t-il toujours être d'actualité S'est-il renforcé ou au contraire s'est-il affaibli Le projet d'un questionnement du bonheur dans le roman contemporain comportait de gros risques mais il offrait en même temps des possibilités stimulantes A la suite du colloque international organisé à l'université de Haïfa en mai 2010 les textes réunis dans ce livre cherchent à laborer des éléments de réponse à ces questions Le volume offre un état des lieux du bonheur dans le roman depuis 1980 et présente une large diversité d'approches de définitions d'interrogations sur la critique du bonheur sur trois siècles Le recueil s'articule autour d'axes qui ont servi de base aux différentes approches du bonheur en Europe et d'événements historiques et sociaux qui ont pu influencer la critique du bonheur aux différents périodes du XXe et XXIe siècles telles que l'Holocauste la dystopie en Russie le postmodernisme et le consumérisme le quotidien les différents paradoxes du bonheur les nouveaux modes de vie Nouvelle

critique du bonheur Du moins ce volume vise à le contemporain sans figer les œuvres tout en tenant compte des fluctuations du sujet de sa diversité de ses paradoxes surtout tout en conservant la lecture précise des textes et en respectant la particularité de la critique des auteurs traités
