Wheeling and Dealing Esther I. Wilder, 2006 Before his motorcycle accident Travis saw himself becoming a pro football player Now paralyzed from the nipple down he says At times it s a pain in the ass literally and figuratively But it allows me to not be as threatening to some people the way I was when I was still an athlete Because a lot of times male interaction is done on the basis of pissing contests I m bigger I m tougher I m stronger I m smarter When you re in a chair they don t look at you like that At the same time Travis complains that many people are uncomfortable interacting with him because of his disability I would rather you make a mistake and deal with me than not deal with me at all Meghan is a high level quadriplegic living alone who uses a power wheelchair and requires daily attendant care She laments There are so many people who think we re asexual we re not pretty and we re creeps and weirdoes To dispel this myth she envisions a fashion show of women in wheelchairs parading down a runway Meghan has been involved in a number of sexual relationships since sustaining her injury While she doesn t think her disability has diminished her sexual pleasure she feels that it has affected her sexual performance Well you can t move it You can t like bump and grind In 32 unusually frank in depth interviews like these the men and women in this book freely discuss their sex lives their beliefs about God how they want others to treat them and whether they want to walk again In each chapter the author presents their complex voices and comprehensive research about different facets of spinal cord injury SCI *Wheeling and Dealing* explores the extent to which people with spinal cord injury locate their challenges in their physical impairments or in the social environment Some disagree with those disability activists who focus almost exclusively on the latter but the author examines this issue in depth Topics include Physical health from degrees of loss of function to problems like pressure sores temperature regulation and bladder control The stages of psychological adjustment and rehabilitation Obstacles to sexual intimacy treatment of erectile dysfunction and new sources of sexual pleasure and emotional intimacy Religion and spirituality Social and political beliefs with those with SCI weighing in on everything from welfare services to embryonic stem cell research Dating marriage and parenting Friendship networks and social supports concerns about transportation and accessibility stigma Education employment and economic consequences This book is the recipient of the 2004 Norman L and Roselea J Goldberg Prize from Vanderbilt University Press for the best project in the area of medicine

Cranford, 2020-06-15 In this revealing look at home care Cynthia J Cranford illustrates how elderly and disabled people and the immigrant women workers who assist them in daily activities develop meaningful relationships even when their different ages abilities races nationalities and socioeconomic backgrounds generate tension As Cranford shows workers can experience devaluation within racialized and gendered class hierarchies which shapes their pursuit of security Cranford analyzes the tensions alliances and compromises between security for workers and flexibility for elderly and disabled people and she argues that workers and recipients negotiate flexibility and security within intersecting inequalities in varying ways depending on multiple interacting dynamics What comes through from Cranford s analysis is the need for deeply democratic alliances across multiple axes of inequality To support both flexible care and secure work she argues for an intimate community unionism that advocates for universal state funding designs culturally sensitive labor market intermediaries run by workers and recipients to help people find jobs or workers and addresses everyday tensions in home workplaces
