Discovery 6000 BC to AD 1500 Chronologically based but focused more on skill development Meant to be a 20 to 30 minute experience every day World history is combined with social studies in a one year course The Jr High School student will see history come to life no matter what their pace or ability Developed by Dr James Stobaugh the courses grow in difficulty with each year preparing students for high school work This is a comprehensive examination of history geography economics and government systems This educational set equips students to learn from a starting point of God s creation of the world and move forward with a solid biblically based worldview Volume I Covers The Fertile Crescent Egypt India China Japan Greece Christian history and more **Studies in World History Volume 3 (Student)** James P. Stobaugh, 2014-04-01 The Modern Age to Present 1900 AD to Present Chronologically based but focused more on skill development Meant to be a 30 to 45 minute experience every day World history is combined with social studies in a one year course The middle school student will see history come to life no matter what their pace or ability Developed by Dr James Stobaugh the courses grow in difficulty with each year preparing students for high school work This is a comprehensive examination of history geography economics and government systems This educational set equips students to learn from a starting point of God s creation of the world and move forward with a solid biblically based worldview Volume III Covers Modernism the World at War American Education Evangelicalism Modern Social Problems and more History After the Three Worlds Arif Dirlik, Vinay Bahl, Peter Gran, 2000 History as a discipline faces a crisis of identity as Eurocentrism fades in a world where globalized visions compete to explain historical processes Facing the challenge squarely this volume_ comprising specialists on Asia Africa and Latin America_ explores the state of historical analysis in various world regions and appraises current views on what defines and challenges historical knowledge It is widely accepted that Eurocentrism no longer seem acceptable in a world where others are reasserting their own notions of past and future The postDWorld War II spatialities that guided both historical analysis and the division of labor in historical work are in the process of disappearing into more globalized visions Constituencies left out of history in the past are making demands for the recognition of their historical presence History as epistemology is under attack as a marker of Eurocentric modernity from non historical ways of thinking as well as from ideologies of postmodernism that deny to history its claims to truth Indeed the current situation in the field has been described by one distinguished historian as a Ocacophonous confusion O The challenge historians face is how to imagine new ways of writing history that overcome this confusion without falling back upon ideological and methodological prejudices that reproduce the problems of the past in new guises The contributors discuss how these challenges are voiced and met in their different areas of specialization Unsurprising in a volume that addresses a variety of regions and issues that are not only technically historiographical but also deeply cultural and political the authors differ in their appraisal of the challenges presented by globalization postmodernism or postcolonialism Yet they are united in their recognition of the validity of historical ways of knowing and their reaffirmation of the importance of history in grasping contemporary cultural and political problems It is

because history is entangled in a Eurocentric modernity that in a postmodern world it provides the medium for articulating alternatives to Eurocentrism_and to history itself **Studies in World History Volume 2 (Student)** James P.
