The Worlds of Irving Howe John Rodden, 2004

Politics and the Intellectual Irving Howe, 2010 A compilation of Irving Howe s interviews during the last fifteen years of his life this book represents what could be viewed as the sequel to Howe s intellectual autobiography *A Margin of Hope* which took the story of his life only up to the late 1970s Many of these interviews were never published and have existed only as personal tapes in the hands of such scholars and activists as Todd Gitlin and Maurice Isserman Others were originally published in such venues as *The New York Times* *The Jerusalem Post* and the PBS documentary *Arguing the World* Howe never organized his thoughts about the last fifteen years of his life during which he gained renown for *World of Our Fathers* received a MacArthur Fellowship and became widely regarded as the leading left liberal intellectual in the U S and arguably the leading literary critic in America following the deaths of Lionel Trilling and Edmund Wilson During this time Howe also struggled to redefine the American Left in an environment that discounted and marginalized it Indeed these interviews may have particular significance today a period of new opportunities for the liberal Left yet one in which it struggles to construct some coherent identity and compelling program The editors worked with the full cooperation of Howe s family His daughter Nina contributed an afterword and provided a number of illustrations and photos that have never before appeared in print

Lionel Trilling and Irving Howe Edward Alexander, 2017-09-08 This pioneering effort links history and personality by pairing intellectual friends and foes most notably Lionel Trilling and Irving Howe but also Thomas Carlyle and John Stuart Mill T E Lawrence and Bertrand Russell and lesser known figures The periods range from the early 1830s when Carlyle and Mill discovered each other to 1975 when Lionel Thrilling died and the relationship with Howe ended The essay that gives this volume its title is also the most ambitious Alexander examines Trilling and Howe in relation to one another as well as their comparative reactions to the Holocaust He explores their participation in the fierce disputes of the fifties over the

relationship between literature and society and their perspectives on the turmoil of the American sixties The chapter on the friendships and ex friendships of Carlyle and Mill Lawrence and Russell views their stories against the background of the modern conflict between reason and feeling positivism and imagination But Alexander avoids viewing each pair of friends as counterparts Though relationships may have begun in adversity they sometimes developed into friendships As a young woman George Eliot dismissed Jews as candidates for extermination but her friendship with the Talmudic scholar Emanuel Deutsch changed her into one of the major Judeophiles of the Victorian period And the quartet of Thomas Carlyle J S Mill D H Lawrence and Bertrand Russell shows how quickly formed literary friendships especially those based on the hunger for disciples sometimes dissolve into ex friendships This volume reveals new perspectives on leading literary figures and their relationships and shows how personal friendship influences art [Book Review Index](#) ,2006 Every 3rd issue is a quarterly cumulation

Philip Roth and World Literature: Transatlantic Perspectives and Uneasy Passages Velichka D. Ivanova,2014-03-18 A book like this is long overdue because not many are aware of the numerous intersections between Philip Roth s fiction and world literature In highlighting these intersections and uneasy passages this comparative approach offers an important contribution to Philip Roth studies as well as to comparative literary study in general The fourteen chapters on this book summon Roth s intertextual links to authors ranging from the anonymous writer of the medieval play Everyman through Thoreau Hawthorne Crane Ellison Coover and the New York intellectuals in the United States to Swift Chekhov Svevo Kafka Schulz Gombrowicz Camus and Kl ma in Europe and on to Coetzee in South Africa The book does not deal with all the works in Roth s canon but it offers a selection of works representing the different stages of Roth s development as a writer By offering new readings of both well studied and lesser studied works sometimes in unexpected company the book discloses the critical difference that comparative scholarship can affect The uneasy passages the book opens will not exhaust the numerous intersections between Roth and the work of other writers The book s contribution is to place Roth s fiction firmly in a larger transnational context Far from insular Roth s work appears as deeply rooted in the American canon while at the same time showing a remarkable openness a persistent need for contact with his European forebears and true engagement with contemporary world literature The transnational perspective of the book makes it important for the rapidly growing field of transatlantic and transnational American studies The book will be value to collections in American literature and Jewish studies comparative literature and criticism and transatlantic and transnational American studies **The World of the Worker** James R. disarticulate those at the edges of language have paradoxically played essential defining roles Drawing on the disarticulate figures in modern fictional works such as *Billy Budd* *The Sound and the Fury* *Nightwood* *White Noise* and *The Echo Maker* among others James Berger shows in this intellectually bracing study how these characters mark sites at which aesthetic philosophical ethical political medical and scientific discourses converge It is also the place of the greatest ethical tension as society confronts the needs and desires of the least of its brothers Berger argues that the disarticulate is that which is unaccountable in the discourses of modernity and thus stands as an alternative to the prevailing social order Using literary history and theory as well as disability and trauma theory he examines how these disarticulate figures reveal modernity's anxieties in terms of how it constructs its others **Humanities** ,1993 *Rosa Luxemburg* J. Preface by Jesse Benjamin and the Walter Rodney Foundation Introduction by Robin D G Kelley Afterword by Vijay Prashad In his short life the Guyanese intellectual Walter Rodney emerged as one of the leading revolutionary thinkers of the Black Sixties He became a leading force of dissent throughout the Caribbean and a lightning rod of controversy The 1968 Rodney Riots erupted in Jamaica when he was prevented from returning to his teaching post at the University of the West Indies In 1980 Rodney was assassinated in Guyana reportedly at the behest of the government In the mid 70s Rodney taught a course on the Russian Revolution at the University of Dar es Salaam in Tanzania A Pan Africanist and Marxist Rodney sought to make sense of the reverberations of the October Revolution in a decolonising world marked by Third World revolutionary movements He intended to publish a book based on his research and teaching Now historians Jesse Benjamin Robin D G Kelley and Vijay Prashad have edited Rodney's polished chapters and unfinished lecture notes presenting the book that Rodney had hoped to publish in his lifetime 1917 is a signal event in radical publishing and will inaugurate Verso's standard edition of Walter Rodney's works *Living with America, 1946-1996* Peter G. Boyle,1997 *No Race, No Country* Deborah Mutnick,2025-05-05

No Race, No Country presents a major reconsideration of the breakthrough African American author Richard Wright's work and life It challenges standard evaluations of his reputation as an autodidact his late novels his travel books and his political commitments after he left the Communist Party USA Deborah Mutnick engages a wide range of

Wright's work throughout his career providing a nuanced perspective on his complicated gender politics and his serious engagement with Marx's notions of historical materialism, alienation, and commodity fetishism. Adding to a small but growing number of studies of his ecological consciousness, it also examines both his closeness to nature, especially during his youth and late in life, and his early mapping of a racial geography of the second nature of the sociocultural world that overlaps with and transforms the natural world. Finally, it joins a recent surge in scholarship on Wright's later nonfiction as a progenitor of Black radical internationalism in the 1960s and 1970s.
