A User's Guide to the USA PATRIOT Act and Beyond Robert P. Abele, 2005. A User's Guide to the USA PATRIOT Act and Beyond examines the controversial USA PATRIOT Act passed by Congress six weeks after the horrific events of September 11, 2001. This new set of American laws gives the federal government broad powers to conduct surveillance on American citizens in some cases without warrant and without judicial oversight. The book summarizes other programs put into operation to severely curtail the civil liberties of Americans including a second more intrusive PATRIOT Act and other proposed programs and laws that attack privacy, probable cause, due process and free speech. The book begins with an overview of the political philosophy of John Locke with a specific emphasis on Locke's theory of human rights and its influence on the U.S. Bill of Rights. These political and legal bases are used as touchstones for explaining and evaluating the PATRIOT Act and other related measures being advocated by many federal leaders today. It lists and responds to arguments supporting the PATRIOT Act and concludes with an essay defending the position that the PATRIOT Act and its successor programs all severely curtail civil liberties.

Bad Grammar Nathan Luff, 2023-03-08. In this action-packed middle-grade novel from acclaimed author Nathan Luff, video game fanatic Marcus must face the ultimate challenge: notorious boarding school Bad Grammar. Bad Grammar, like a prison cell or a shopping centre on Christmas Eve, is a horrific place best avoided. If unlucky enough to serve a sentence at this remote boarding school, forget packing your toothbrush and a spare pair of undies. You'd be better off with your flamethrower and a suit of armour. When he's in the world of his favourite video game, Dragon Warrior, Marcus is nothing short of a legend. But after his only friend moves away and Marcus is decidedly not crushing things in the real world, his parents decide to enrol him in an outback boarding school for kids who have difficulty fitting in. Bad Grammar. It's a place without phones or internet where days are spent avoiding the wrath of bullies with names like Scarface and nights are spent attempting to sleep in a hammock. Before long, being a student at Bad Grammar makes Dragon Warrior look tame. Will Marcus be able to level up and survive a school like no other?

A User's Guide to the Crisis of Civilization Nafeez

Mosaddeq Ahmed,2010-08-06 It often seems that different crises are competing to devastate civilisation This book argues that financial meltdown dwindling oil reserves terrorism and food shortages need to be considered as part of the same ailing system Most accounts of our contemporary global crises focus on one area such as climate change or the threat of terrorism to the exclusion of others Nafeez Mosaddeq Ahmed argues that the unwillingness of experts to consider crises from an interdisciplinary perspective has resulted in their failure to understand historical events From ecology and the environment to political governance the global economy and international relations Ahmed investigates contemporary crises not as isolated events but as trends and processes that belong to a single global system Ahmed posits that we are therefore not dealing with a clash of civilisations as Samuel P Huntington argued Rather we are dealing with a fundamental crisis of civilisation itself
