World Century Compendium To Tcm - Volume 3: Introduction To Chinese Materia Medica Jin Yang, Huang Huang, Lijiang Zhu, 2013-09-12 This book aims to provide readers with adequate

knowledge for clinical application of Chinese medicine which is in line with the fundamental principle of correspondence of Chinese medicinals and patterns It contains a brief introduction to relative theories divides these medicinals by actions into categories such as exterior releasing heat clearing purgative dampness dispelling fluid retention disinhibiting interior warming qi regulating blood invigorating blood stanching food accumulation relieving phlegm cough and wheezing arresting mind tranquilizing liver calming orifices opening tonifying astringing and worm dispelling and elaborates each herb in terms of its actions quality indications usage and dosage Furthermore mnemonics and simple and effective formulas are included to help readers effectively grasp the concepts behind practical applications and precautions and daily practices are specifically designed to support readers in easily understanding and retaining the information **World Century Compendium To**

Tcm - Volume 6: Introduction To Acupuncture And Moxibustion Ren Zhang,2013-09-23 Acupuncture and moxibustion are one of the most important contributions our ancestors have made to humankind In the narrow sense acupuncture and moxibustion refer to medical therapy whilst broadly they are an integral science consisting of four subdisciplines the subject of meridians and acupoints the subject of acupuncture and moxibustion techniques the subject of acupuncture and moxibustion therapy and the subject of experimental acupuncture and moxibustion **World Century Compendium To**

Tcm - Volume 7: Introduction To Tui Na Lan-qing Liu,Gui-bao Ke,2013-10-04 Traditional Chinese tui na one of the earliest medical treatment methods with a long history tracing back to ancient times is an important component of traditional Chinese medicine TCM This book is compiled with the aim of popularizing tui na modality along with allowing readers to understand and master the fundamental theories basic techniques commonly used acupoints and parts and diagnosis and treatment methods of diseases in a relatively short period of time The book is a summary of clinical experiences of tui na with practical contents and detailed illustrations which can be easily appreciated and serve both purposes of the popularization of tui na and advancement in this field The book introduces 25 common maneuvers including manipulations in children more than 70 common diseases with diagnostic treatment and preventive methods and some 240 images illustrating acupoints maneuvers examination and treatment methods in order to facilitate study and learning The formal arrangement totals 14 weeks with two days of extra content adding up to one hundred days Lastly the book has appended four indices Common Tui Na Acupoints and Areas Common Tui Na Maneuvers Common Examinations and Common Applicable Diseases and Symptoms After completion of the book readers will be able to understand the main essence in the discipline of tui na and dispel the stereotypical view that tui na can only treat pains and movement disorders The correct concept should be established so that it can be applied to a variety of diseases in internal medicine external medicine gynecology and pediatrics in clinical practice In addition the readers will have built a solid foundation for a further and more in depth grasp of the discipline World Century Compendium To Tcm - Volume 4: Introduction To Chinese Internal Medicine Xiang Xia,Xiao-heng Shen,Min Chen,Yan-qian Xiao,2013-10-04 Chinese internal medicine is a clinical subject which explains using traditional Chinese

theories the etiology pathology and therapeutic rules of the diseases or syndromes belonging to internal medicine It is also the foundation for learning and research in other clinical branches of Chinese medicine thus playing a vital role in traditional Chinese medicine TCM Chinese internal medicine has had a long history Its origins can be traced back several thousand years Through long term diagnostic and therapeutic practices a rich collection of experiences and theories in Chinese internal medicine has been accumulated and this has gradually evolved into a complete distinctive and effective clinical branch In recent decades Chinese internal medicine has also undergone more significant developments especially in the treatment of cardiac or cerebral vascular diseases digestive tract diseases renal diseases and autoimmune diseases In order to popularize Chinese internal medicine and allow readers to grasp its basic theories as well as diagnostic and therapeutic methods we wrote this book in a language easily comprehensible by the layman For ease of learning by modern doctors we proceeded from the current clinical practice and outlined the contents with Western disease names There are more than 80 diseases discussed in this book For each disease the Chinese syndrome differentiation and treatment as well as modern diagnostic key points are provided to make it more convenient for the readers to study and understand The study of each disease should begin from its etiology pathology and diagnostic key points followed by the differentiated patterns and corresponding treatments The respective points of caution for each disease should also be well noted Finally the questions forming the Daily Exercises are useful for readers to check their comprehension and recall of the material Given the chance the theoretical knowledge should also be applied in clinical practice so that past knowledge is tested and new clinical knowledge and skills can be learned This book is suitable for those who are enthusiastic about TCM and with basic medical knowledge as well as clinical TCM doctors nursing personnel and TCM students
