Train Your Brain Dana Wilde, 2013-08 Using Train Your Brain in two years I've gone from zero to a million dollars a year in my business and paid off 30 000 in debt Sarah Thomas Basehor KS When Dana Wilde began her direct sales business she realized that education for entrepreneurs typically consisted of endless how to explanations how to market how to pick up the phone how to manage your time how to increase bookings or sales There always seemed to be a new system to learn a new surefire method or cutting edge technique for entrepreneurs to master In an effort to teach her team members a better and easier way Dana Wilde created Train Your Brain a tested and proven system combining elements of both mindset and action or as Dana likes to call it Intentional Action What Dana discovered by using Train Your Brain is that mindset can be taught and that learning simple mindset strategies not only allows you to understand how the brain works but also shows you how easy it is to change your thinking and as a result change your outcomes In Train Your Brain Dana breaks down the Cycle of Perpetual Sameness the number one reason why most people only experience incremental change in their lives More importantly she also provides the much needed blueprint to help you get off this counterproductive cycle quickly Train Your Brain with its twenty easy to implement Mindware Experiments gives you all the necessary tools needed to get off and stay off the Cycle of Perpetual Sameness so you can transform your life and grow your business in record time **The Million**

understand how the brain works but also shows you how easy it is to change your thinking and as a result change your outcomes In Train Your Brain Dana breaks down the Cycle of Perpetual Sameness the number one reason why most people only experience incremental change in their lives More importantly she also provides the much needed blueprint to help you get off this counterproductive cycle quickly Train Your Brain with its twenty easy to implement Mindware Experiments gives you all the necessary tools needed to get off and stay off the Cycle of Perpetual Sameness so you can transform your life and grow your business in record time Neuromatic John Lardas Modern,2021-09-29 The story Modern tells ranges from eighteenth century brain anatomies to the MRI from the spread of phrenological cabinets and mental pieties in the nineteenth century to the discovery of the motor cortex and the emergence of the brain wave as a measurable manifestation of cognition from cybernetic research into neural networks and artificial intelligence to the founding of brain centric religious organizations such as Scientology from the deployments of cognitive paradigms in electric shock treatment to the work of Barbara Brown a neurofeedback pioneer who promoted the practice of controlling one's own brainwaves in the 1970s What Modern reveals via this grand tour is that our ostensibly secular turn to the brain is bound up at every turn with the religion it discounts ignores or actively dismisses Nowhere are science and religion closer than when they try to exclude each other at their own peril Brain book.
