Joey Coleman, 2018-04-03 Award winning speaker and business consultant Joey Coleman teaches audiences and companies all over the world how to turn a one time purchaser into a lifelong customer Coleman s theory of building customer loyalty isn t about focusing on marketing or closing the sale It s about the First 100 Days after the sale and the interactions the customer experiences While new customers experience joy euphoria and excitement these feelings quickly shift to fear doubt and uncertainty as buyer s remorse sets in Across all industries somewhere between 20% 70% of newly acquired customers will stop doing business with a company within the first 100 days of being a new customer because they feel neglected in the early stages of customer onboarding In **Never Lose a Customer Again** Coleman offers a philosophy and methodology for dramatically increasing customer retention and as a result the bottom line He identifies eight distinct emotional phases customers go through in the 100 days following a purchase From an impulse buy at Starbucks to the thoughtful purchase of a first house all customers have the potential to experience the eight phases of the customer journey If you can understand and anticipate the customers emotions you can apply a myriad of tools and techniques in person email phone mail video and presents to cement a long and valuable relationship Coleman s system is presented through research and case studies showing how best in class companies create remarkable customer experiences at each step in the customer lifecycle In the Acclimate stage customers need you to hold their hand and over explain how to use your product or service They re often too

embarrassed to admit they're confused. Take a cue from Canadian software company PolicyMedical and their challenge of getting non-technical users to undergo a complex installation and implementation process. They turned a series of project spreadsheets and installation manuals into a beautiful puzzle customers could assemble after completing each milestone. In the Adopt stage, customers should be welcomed to the highest tier of tribal membership with both public and private recognitions. For instance, Sephora's VIB Rogue member welcome gift provides a metallic membership card, private recognition, and a members-only shade of lipstick for public display. In the final stage, Advocate, loyal customers and raving fans are primed to provide powerful referrals. That's how elite entrepreneurial event MastermindTalks continues to sell out their conference year after year with zero dollars spent on marketing. By surprising their loyal fans with amazing referral bonuses, an all-expenses-paid safari, they guarantee their community will keep providing perfect referrals. Drawing on nearly two decades of consulting and keynoting, Coleman provides strategies and systems to increase customer loyalty. Applicable to companies in any industry and of any size, whether measured in employee count, revenue, or total number of customers, implementing his methods regularly leads to an increase in profits of 25-100%. Working with well-known clients like Hyatt Hotels, Zappos, and NASA, as well as mom and pop shops and solo entrepreneurs around the world, Coleman's customer retention system has produced incredible results in dozens of industries. His approach to creating remarkable customer experiences requires minimal financial investment and will be fun for owners, employees, and teams to implement. This book is required reading for business owners, CEOs, and managers, as well as sales and marketing teams, account managers, and customer service representatives looking for easy-to-implement action steps that result in lasting change, increased profits, and lifelong customer retention.

If You're in a Dogfight, Become a Cat! Leonard Sherman, 2017-01-10. Businesses often find themselves trapped in a competitive dogfight, scratching and clawing for market share with products consumers view as largely undifferentiated. Conventional wisdom suggests that dogfights are to be expected as marketplaces mature, giving rise to the notion that there are bad industries where it is unlikely that any company can succeed. But there are notable exceptions in which enlightened executives have changed the rules to grasp the holy grail of business: long-term profitable growth. Rather than joining the dogfights raging within their industry, companies such as Apple, FedEx, and Starbucks have chosen to become metaphorical cats, continuously renewing their distinctive strategies to compete on their own terms. In *If You're in a Dogfight, Become a Cat*, Leonard Sherman draws on four decades of experience in management consulting, venture capital, and teaching business strategy at Columbia Business School to share practical advice on two of the most vexing issues facing business executives: why is it so hard to achieve long-term profitable growth, and what can companies do to break away from the pack? Sherman takes the reader on a provocative journey through the building blocks of business strategy by challenging conventional wisdom on a number of questions that will redefine management best practices: What should be the overarching purpose of your business? Do you really know what your strategy is? Is there such a thing as a bad industry? Where do great ideas come from, and how do I find them? What makes products meaningfully different? What makes and breaks great brands? How and when should I disrupt my own company? What are the imperatives to achieving long-term profitable growth? Filled with dozens of illustrative examples of inspiring successes and dispiriting falls from grace, this book provides deep insights on how to become the cat in a dogfight, whether you are a CEO, mid-level manager, aspiring business school student, or curious observer interested in achieving sustained profitable growth.
