Rocky Times Yasuyuki Fuchita,Richard J. Herring,Robert E. Litan,2012-10-22 It has been four years since the financial crisis of 2008 and the global financial system still is experiencing malaise caused by high rates of unemployment a lingering unresolved supply of foreclosed properties the deepening European debt crisis and fear of a recurrence of the bank turmoil that brought about the Great Recession All of these factors have led to stagnant economic growth worldwide In Rocky Times editors Yasuyuki Fuchita Richard J Herring and Robert E Litan bring together experts from academia and the banking sector to analyze the difficult issues surrounding troubled large financial institutions in an environment of economic uncertainty and growing public anger Continuing the format of the previous Brookings Nomura collaborations Rocky Times focuses largely on developments within the United States and Japan but looks at those in other nations as well This volume examines two broad areas the Japanese approach to regulating financial institutions and promoting financial stability and the U S approach in light of the Dodd Frank Act Specific chapters include Managing

Systemwide Financial Crises Some Lessons from Japan since 1990 The Bankruptcy of Bankruptcy The Case for Regulating the Shadow Banking System Why and How to Design a Contingent Convertible Debt Requirement and Governance Issues for Macroprudential Policy in Advanced Economies Contributors Gavin Bingham Systemic Policy Partnership London Charles W Calomiris Columbia Business School Douglas J Elliott Brookings Institution Kei Kodachi Nomura Institute of Capital Markets Research Morgan Ricks Vanderbilt Law School A Bank's Duty of Care Danny Busch, Cees van Dam, 2017-08-24 In recent years an increasing number of clients and third parties have filed claims against banks such as for mis selling financial products poor financial advice insufficient disclosure of and warning about financial risks The scope of a bank's duty of care seems to expand not only to include protection of consumers against unclear risks of complicated products but also protection of professional parties against more obvious risks of relatively straightforward products This topic raises many questions both at a theoretical and practical level This book provides a rich source of information about how various jurisdictions Germany Austria France Italy Spain the Netherlands England and Wales Ireland and the United States of America deal with these questions and how answers are found or embedded in their national legal systems The book also contains a detailed chapter on the MiFID I and II conduct of business provisions Finally the book provides a thorough comparative analysis and perspective The Essayist: Reflections from a Real Estate Survivor D. Sidney Potter, 2017-01-16 The pathos of the 2008 Great Recession had a fairly wide sweep from minimum wage busboys to newspaper heiresses like Veronica Hearst to Federal Reserve chair Ben Bernanke whose childhood home was lost as a result of a relative not making timely mortgage payments wherein all mentioned experienced some type of economic pain or at least embarrassment related to the Great Recession These episodes are captured in this book as a way to bring a slight degree of levity to this economic catastrophe but to also underscore a serious juncture in American social and political theory as well Author D Sidney Potter once a prolific real estate investor in the early to late part of the real estate boom that led to the bust puts a spotlight on the real estate finance mortgage industry as once a lucrative insider to now as a disenfranchised member and erstwhile benefactor The irony of having to make his living as a mortgage operations professional who now examines the very mortgage financings that once bore his name does not go past him His unabashed and sometimes crude essays examine the usual suspects from banker CEOs nascent political movements and professional legislators to the analytics of mortgage products that resulted in the self inflicted implosion Mr Potter's collection of essays acts as a self entombed time capsule that should be taken as a testimony of fact not fiction **The Vigilant Investor** Pat Huddleston, 2012 Huddleston explains why we fall for investment scams how con artists play on the human tendencies we all share and what we can do to protect ourselves from predators *Blockchain Revolution* Don Tapscott, Alex Tapscott, 2016-05-10 Blockchain technology is powering our future As the technology behind cryptocurrencies like bitcoin and Facebook's Libra open software platforms like Ethereum and disruptive companies like Ripple it's too important to ignore In this revelatory book Don Tapscott the

bestselling author of Wikinomics and his son blockchain expert Alex Tapscott bring us a brilliantly researched highly readable and essential book about the technology driving the future of the economy Blockchain is the ingeniously simple revolutionary protocol that allows transactions to be simultaneously anonymous and secure by maintaining a tamperproof public ledger of value Though it is best known as the technology that drives bitcoin and other digital currencies it also has the potential to go far beyond currency to record virtually everything of value to humankind from birth and death certificates to insurance claims land titles and even votes Blockchain is also essential to understand if you're an artist who wants to make a living off your art a consumer who wants to know where that hamburger meat really came from an immigrant who's tired of paying big fees to send money home to your loved ones or an entrepreneur looking for a new platform to build a business And those examples are barely the tip of the iceberg As with major paradigm shifts that preceded it blockchain technology will create winners and losers This book shines a light on where it can lead us in the next decade and beyond New York and Los Angeles David Halle, Andrew A. Beveridge, 2013-05-23 This interdisciplinary analysis of New York and Los Angeles the nation's two largest cities and urban regions is the first in-depth study of the two cities and regions to incorporate new census data and an analysis of the impact of the ongoing financial crisis and economic recession **Federal Register**, 2014

Untangling the USA Etienne Deffarges, 2018-06-14 Tom Brady and the tuck rule Nobody knew health care could be so complicated The financial world has become way too complicated and very secretive What could Tom Brady Donald Trump and Michael Lewis possibly have in common Complexity Lewis has analyzed it Trump has discovered it Brady has benefited from it And the USA is entangled in it Complex systems are an inevitable part of business and socio-economic structures We reach a breaking point however when social and organizational structures become cumbersome and unintelligible Entire new systems need to be constructed just to manage this complexity with questionable or negative value to society at large The outcome is high costs poor results deepening social inequality and the erosion of public trust Wholesale changes must be contemplated This is particularly true in the USA today where complexity is piled upon complexity in a number of critical sectors such as health care energy finance and government The author takes a common sense broad-based and analytical approach to some of the most complicated issues facing the US today He examines the costs of complexity through a wide-angle lens provides analysis of the root causes involved and explains what is necessary to improve results and lower costs The ever-increasing level of complexity in the US is compared to that in other developed economies History is referenced as a guide to show that in many areas America's success has relied on simple and elegant solutions These contrasting paths are used to propose alternative approaches and new solutions Beyond analyzing how incredibly complex socio-economic systems have emerged in recent years in the US the author steps back reflects on the fundamental values of this country and offers a number of actionable proposals to improve the lives of all American citizens Etienne Deffarges has enjoyed a successful career first as a senior strategy consultant to many leading global companies then as a health care technology entrepreneur
