What Is History What Is History:

What Is History? Edward Hallett Carr, 1967-10-12 Who is to say how things really were In formulating a modern answer to the question What is History Professor Carr shows that the facts of history are simply those which historians have selected for scrutiny Millions have crossed the Rubicon but the historians tell us that only Caesar's crossing was significant All historical facts come to us as a result of interpretative choices by historians influenced by the standards of their age Yet if absolute objectivity is impossible the role of the historian need in no way suffer nor does history lose its fascination With lucidity Carr casts a light on the proper function of the historian and the vital importance of history in modern society This is an admirably stimulating and intrepid book a bold excursion into a region of central importance where most contemporary philosophers and historians unaccountably either fear or disdain to tread Isaiah Berlin New Statesman **What is History?** Michael Oakeshott, 2004 This is a collection of 30 pieces by Michael Oakeshott almost all of which are previously unpublished covering every decade of his intellectual career The essays were intended mostly for lectures or seminars and retain an informal style that makes them accessible to readers What is History? Edward Hallett Carr, 1986 *What is History Now?* D. Cannadine, 2002-07-05 E H Carr's What is History was originally published by Macmillan in 1961 Since then it has sold hundreds of thousands of copies throughout the world In this book ten internationally renowned scholars writing from a range of historical vantage points answer Carr's question for a new generation of historians What does it mean to study history at the start of the Twenty first century This volume stands alongside Carr's classic paying tribute to his seminal enquiry while moving the debate into new territory to ensure its freshness and relevance for a new century of historical study

What is History? E. H. Carr, 2018-06-07 Not only one of our most distinguished historians but also one of the most valuable contributors to historical theory Spectator In formulating an answer to the question of What is History Carr argues that the facts of history are simply those which historians have chosen to focus on All historical facts come to us as a result of interpretive choices by historians influenced by the standards of their age Now for the first time in Penguin Modern Classics with an introduction by Richard J Evans author of the Third Reich trilogy **What is History?** E. Carr, R. Evans, 2017-11-09 Since its first publication in 1961 E H Carr's What is History has established itself as the classic introduction to the subject Ranging across topics such as historical objectivity society and the individual the nature of causation and the possibility of progress Carr delivered an incisive text that still has the power to provoke debate today For this fortieth anniversary reissue Richard J Evans has written an extensive new introduction that discusses the origins and the impact of the book and assesses its relevance in the age of twenty first century postmodernism and epistemological anxiety **A Concise History of History** Daniel Woolf, 2019-01-17 An incisive account of the entire history of historical writing worldwide by one of the leading intellects in the field What Is History, Now? Suzannah Lipscomb, Helen Carr, 2021-09-23 This groundbreaking new collection addresses the burning issue of how we interpret history today What stories are told and by whom who should

Shotwell,1922 **What History is and why it is Important** Arthur Marwick,Open University. Arts Foundation Course Team,1970 **History** G. J. Renier,2016-04-14 This treatise of historical methodology originally published in 1950 is based upon a liberal conception of history which excludes no narrator of past events from the ranks of historians It defines history as the accurate story which preserves the memory of the past experiences of human societies The function of history determines its method and provides the answer to the question how secure is our knowledge of the past In the author s view history is empirical and its results are for ever provisional The relative merits of dogmatism and scepticism are examined and several interpretations among English historians are scrutinized **History, what and Why?** Beverley C. Southgate,2001 This is a highly accessible introductory survey of historians views about the nature and purpose of their subject and discusses the traditional model of history as an account of the past as it was **The Meaning of History** Frederic Harrison,1902 On 'what is History?' History? Keith Jenkins, 2005-11-18 Why History is an introduction to the issue of history and ethics Designed to provoke discussion the book asks whether a good knowledge and understanding of the past is a good thing to have and if so why In the context of postmodern times Why History suggests that the goal of learning lessons from the past is actually learning lessons from stories written by historians and others If the past as history has no foundation can anything ethical be gained from history Why History presents liberating challenges to history and ethics proposing that we have reached an emancipatory moment which is well beyond the end of history

Re-thinking History Keith Jenkins, Alun Munslow, 2003 History means many things to many people But finding an answer to the question What is history is a task few feel equipped to answer If you want to explore this tantalising subject where do you start What are the critical skills you need to begin to make sense of the past The perfect introduction to this thought provoking area Jenkins clear and concise prose guides readers through the controversies and debates that surround historical thinking at the present time providing them with the means to make their own discoveries

Thinking About History Sarah Maza, 2017-09-18 What distinguishes history as a discipline from other fields of study That s the animating question of Sarah Maza s Thinking About History a general introduction to the field of history that revels in its eclecticism and highlights the inherent tensions and controversies that shape it Designed for the classroom Thinking About History is organized around big questions Whose history do we write and how does that affect what stories get told and how they are told How did we come to view the nation as the inevitable context for history and what happens when we move outside those boundaries What is the relation among popular academic and public history and how should we evaluate sources What is the difference between description and interpretation and how do we balance them Maza provides choice examples in place of definitive answers and the result is a book that will spark classroom discussion and offer students a view of history as a vibrant ever changing field of inquiry that is thoroughly relevant to our daily lives

An Introduction to the History of History James Thomson Shotwell, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1922 edition Excerpt SECTION I INTRODUCTION CHAPTER I DEFINITION AND SCOPE OF HISTORY Until recently history itself has lacked historians There have been histories of almost everything else under the sun of literature philosophy the arts and sciences and above all of politics But until the last few years with the exception of a few works for students the story of history has remained unwritten Clio though the oldest of the Muses has been busy recording the past of others but has neglected her own and apparently her readers have seldom inquired of her about it For even yet the phrase history of History conveys but little meaning to most people s minds seeming to suggest some superfluous academic problem for which a busy world should afford no time rather than what it really is that part of the human story which one should master first if one would ever learn to judge the value of the rest The prime reason for this state of affairs is probably that which has just been hinted at Clio was a Muse history has generally been regarded as

a branch of literature Historians have been treated as masters of style or of the creative imagination to be ranked alongside poets or dramatists rather than simply as historians with an art and science of their own Thucydides has been read for his Greek Livy for his Latin Carlyle ranks in book lists with the word painter Ruskin Now and again historical criticisms of the great masters have appeared and scholarly studies of limited fields But so long as history could be viewed as primarily a part of literature its own history could not be written for the recovery of the past is a science as well as an art The history of History therefore had to await the rise of scientific historical
