American Book Publishing Record, 2000-07 Romeo and Juliet in European Culture Juan F. Cerdá, Dirk Delabastita, Keith Gregor, 2017-12-15 With its roots deep in ancient narrative and in various reworkings from the late medieval and early modern period Shakespeare's Romeo and Juliet has left a lasting trace on modern European culture This volume aims to chart the main outlines of this reception process in the broadest sense by considering not only critical scholarly responses but also translations adaptations performances and various material and digital interventions which have from the standpoint of their specific local contexts contributed significantly to the consolidation of Romeo and Juliet as an integral part of Europe's cultural heritage Moving freely across Europe's geography and history and reflecting an awareness of political and cultural backgrounds the volume suggests that Shakespeare's tragedy of youthful love has never ceased to impose itself on us as a way of articulating connections between the local and the European and the global in cases where love and hatred get in each other's way The book is concluded by a selective timeline of the play's different materialisations

Time, Narrative, and Emotion in Early Modern England David Houston Wood, 2016-02-24 Exploiting a link between early modern concepts of the medical and the literary David Houston Wood suggests that the recent critical attention to the gendered classed and raced elements of the embodied early modern subject has been hampered by its failure to acknowledge the role time and temporality play within the scope of these admittedly crucial concerns Wood examines the ways that depictions of time expressed in early modern medical texts reveal themselves in contemporary literary works demonstrating that the early modern recognition of the self as a palpably volatile entity viewed within the tenets of contemporary medical treatises facilitated the realistic portrayal of literary characters and served as a structuring principle for narrative experimentation The study centers on four canonical early modern texts notorious among scholars for their structural that is narrative or temporal difficulties Wood displays the cogency of such analysis by working across a range of generic boundaries from the prose romance of Philip Sidney's *Arcadia* to the staged plays of William Shakespeare's *Othello* and *The Winter's Tale* to John Milton's stubborn reliance upon humoral theory in shaping his brief epic or closet drama *Samson Agonistes* As well as adding a new dimension to the study of authors and texts that remain central to early modern English literary culture the author proposes a new method for analyzing the conjunction of character emotion and narrative structure that will serve as a model for future scholarship in the areas of historicist formalist and critical temporal studies
