Peripheral Visions for Writing Centers Jackie Grutsch McKinney, 2013-04-15 *Peripheral Visions for Writing Centers* aims to inspire a re conception and re envisioning of the boundaries of writing center work Moving beyond the grand narrative of the writing center that it is solely a comfortable yet iconoclastic place where all students go to get one to one tutoring on their writing McKinney shines light on other representations of writing center work McKinney argues that this grand narrative neglects the extent to which writing center work is theoretically and pedagogically complex with ever changing work and conditions and results in a straitjacket for writing center scholars practitioners students and outsiders

alike *Peripheral Visions for Writing Centers* makes the case for a broader narrative of writing center work that recognizes and theorizes the various spaces of writing center labor allows for professionalization of administrators and sees tutoring as just one way to perform writing center work McKinney explores possibilities that lie outside the grand narrative allowing scholars and practitioners to open the field to a fuller richer and more realistic representation of their material labor and intellectual work

Geelan,2007-09-29 If you re the kind of reader who usually skips the Preface I am you can certainly do that It s probably valuable though for me to spend a little time describing the structure of this book to orient you to the way the argument unfolds My intention was to try to find the best possible blend of theory and practice I believe there are plenty of excellent books describing the theoretical underpinnings of qualitative research in education Denzin Eisner 1998 Guba Lincoln Harold 2000 Wolcott 1973 There are fewer books that focus on describing in detail how to conduct these studies Anderson Kerr Van Manen 1990 Wolcott 1990 for an audience that is not already familiar with both the methods and the philosophical commitments that underpin qualitative research This book is intended to do all of these things to some extent or to refer you to other authors who I think do them well but its original contribution is in using as a concrete example a particular research study that I completed This allows me to reflect on the processes and practices and particularly the choices involved in qualitative classroom research and to illustrate those reflections in a very practical way **Innovations in Peace and Education Praxis** David Tim Archer,Basma Hajir,William W. McInerney,2023-03-31 This edited collection brings together a series of conceptual explorations and practical case studies to illuminate a developing innovative praxis of transdisciplinary peace and education Drawing on the work of the Cambridge Peace and Education Research Group as well as international scholars this book responds to calls for transdisciplinary peace and education praxis and presents innovative examples of peace and education research practices peace interventions in educational settings and alternative ontologies in peace and education work Foregrounding the concept of second order reflexivity the book prioritises the lived experiences and viewpoints of struggling populations regarding the worth of peace as grounded within their contexts Ultimately this book showcases how the practices of peace
