General instructions

Hurricane air pistols are supplied fully assembled, packed in specially designed protective boxes, and are ready for immediate use once familiarisation of the pistol and an appreciation of the basic safety rules have been completed.

The basic safety rules

1. Treat every pistol as if it is loaded.
2. Never point a pistol at ANYONE, or allow anyone to point a pistol at you even if you think it is not loaded.
3. Always carry the pistol so that the direction

4. of the muzzle is under control, even if you stumble.
4. Always be sure of your target and what lies behind it, before you squeeze the trigger.
5. Never leave a loaded pistol unattended.
6. Be aware of targets which could be your own.

Keeping to these rules will ensure safe and enjoyable sport with your new air pistol.

Operating instructions

The pistol is fitted with a manual safety mechanism designed so that it is operative only when the gun is cocked. Prior to cocking, therefore, the safe will be in the 'off' position, i.e. with the lever forwards towards the muzzle end.

To cock the pistol hold it firmly by the grip in the right hand then with the right thumb depress the barrel catch to release the barrel as illustrated at A. Lift the barrel with the left hand to take up the first movement then move the hand over so that the back of the hand is towards the body. Grip the barrel firmly then rotate it until the rear is forward and felt to engage. Keep the finger of the right hand clear of the trigger whilst cocking the pistol.

It may be easier to cock the pistol with the left thumb resting on the barrel (Illustration B).

NEB Never allow the barrel to spring back before the rear is engaged, nor pull the trigger until the barrel is returned and secured in its firing position.

If required, apply the safety catch by rotating the safety lever (T37) clockwise until the lever points upwards as illustrated at C.
