through studies of popular risings in Shakespeare Carlyle and the French Revolution the Rebecca Riots in Wales popular ballads and the Indian War of Independence in 1857 post partition riots in India and Pakistan in the 1960s township violence in South African fiction post 1948 the 1965 Watts riots in Los Angeles in detective fiction and avant garde disturbances in France of the 1920s and 1930s Throughout the book these essays focus attention on the tension filled relationship that is perceived between literature and discourses of power and popular resistance

Ethnicity and Cultural Authority Daniel G. Williams, 2005-12-08 Longlisted for the Wales Book of the Year 2007 Writing in 1903 W E B Du Bois suggested that the goal for the African American was to be a co worker in the kingdom of culture He was evoking culture as a solution to the divisions within society thereby adopting in a very different context an idea that had been influentially expressed by Matthew Arnold in the 1860s Du Bois questioned the assumed universality of this concept by asking who ultimately is allowed into the kingdom of culture How does one come to speak from a position of cultural authority This book adopts a transatlantic approach to explore these questions It centres on four Victorian men of letters Matthew Arnold William Dean Howells W B Yeats and W E B Du Bois who drew on notions of ethnicity as a basis from which to assert their cultural authority In comparative close readings of these figures Daniel Williams addresses several key areas of contemporary literary and cultural debate The book questions the notion of the West as it appears and re appears in the formulations of postcolonial theory challenges the widespread tendency to divide nationalism into civic and ethnic forms and forces its readers to reconsider what they mean when they talk about culture identity and national literature

Key Features Offers a substantial innovative intervention in transatlantic debates over race and ethnicity Uses 4 intriguing authors to explore issues of national identity racial purity and the use of literature as a marker of cultural capital A unique focus on Celtic identity in a transatlantic context Sets up a dialogue between writers who believe in national identity and those who believe in cultural distinctiveness

Irish Periodical Culture, 1937-1972 Malcolm Ballin, 2008-07-15 Irish Periodical Culture redefines the contribution of periodicals to the social and intellectual history of Ireland in the developmental decades following the crises of the revolutionary and civil wars In her foreword to the book Claire Connolly shows how Ballin analyzes the networks of writers editors and readers involved in the creative processes of

production while he tells the stories of the rich social and cultural lives of periodicals. Paying special attention to the salient characteristics of the *Review*, *The Miscellany* and *The Little Magazine*, Ballin illustrates their histories in comprehensive examples drawn from Ireland and England. This book provides distinctive insights into genre's role in periodicals through a comparison with the behaviors of periodicals in Northern Ireland, Wales and Scotland and is able to elucidate the long range significance of periodicals.

Literary Research Guide James L. Harner, 2008. James L. Harner's *Literary Research Guide* which Choice calls the standard guide in the field evaluates important reference materials in English studies. Since the publication of the first edition in 1989, tens of thousands of students and educators have used the Guide as an aid to scholarly research. In the new edition, Harner has added entries describing resources published since May 2001 and has revised nearly half the entries from the fourth edition. The fifth edition contains more than 1,000 entries which discuss an additional 1,555 books, articles and electronic resources and cite 723 reviews. Readers of earlier editions will notice the inclusion of substantially more electronic resources, particularly reliable sites sponsored by academic institutions and learned societies to account for the proliferation of bibliographic databases, text archives and other online resources. This edition also features a new section on cultural studies.

Postcolonialism Revisited Kirsti Bohata, 2004. This study considers the ways in which postcolonial theory may be usefully adopted and adapted in order to provide an illuminating reading of Welsh writing in English. It also illustrates how the Anglophone literature of Wales challenges many of the assumptions and dogmas of postcolonial theory. In addition to dealing with theorists in the field such as Frantz Fanon, Gayatri Spivak and Homi Bhabha, the book also looks at the construction of Wales as a colonized nation in 20th century literature. A wide range of subject matter is covered including the work of Welsh missionaries in India, the policy of afforestation in Wales before and after World War II, the history of the campaigns for women's rights in Wales and the post-Darwinian racial theories of the 19th century. Some of the authors considered include R. S. Thomas, Emyr Humphreys, Peter Finch and Gwyneth Lewis.
