facets of developmental issues Although the issues and events that informed the writings of Popper's *The Poverty of Historicism* as well as *The Open Society and Its Enemies* were among others the rise of fascism and communism in Europe the inventiveness of this work is how happily scholars in non liberal societies such as in Africa can pick up Popper's insights and usefully work with them to offer appropriate social reforms for their society This volume is a critical juxtaposition of Popper's ideas in a bid to make good sense of social and intellectual conditions in Africa particularly as it relates to the scale and speed of social change that is needed in most African nations that are often ridden by corruption The book is suitable for studies in political philosophy economic and development studies African Studies and Indigenous Knowledge systems
