Tourism Mobilities Development Sparsely Populated:

Tourism, Mobilities, and Development in Sparsely Populated Areas Doris Carson, Dean Carson, Linda Lundmark, 2017-10-02 Tourism mobilities are not restricted to the movement of tourists between places of origin and destinations. Particularly in more peripheral remote or sparsely populated destinations workers and residents are also likely to be frequently moving between locations. Such destinations attract seasonal or temporary residents sometimes with only loose ties to the tourism industry. These flows of mobile populations are accompanied by flows of other resources money knowledge ideas and innovations which can be used to help the economic and social development of the destination. This book examines key aspects of the human mobilities associated with tourism in sparsely populated areas and investigates how new mobility patterns inspired by technological economic political and social change provide both opportunities and risks for those areas. Examples are drawn from the northern peripheries of Europe and the north of Australia and the book provides a framework for continuing research into the role that tourism and new mobilities can play in regional development in these locations. This book was originally published as a special issue of the Scandinavian Journal of Hospitality and Tourism.

Handbook on Tourism and Rural Community Development Heather Mair, 2023-01-20 This Handbook brings together experts from around the world to reflect critically on the relationship between tourism and rural community development. It first orients the reader in the important conceptual and epistemological foundations of the topic before moving to consider key concepts and the most significant and salient theoretical and methodological developments in the field. **Handbook of Research on International Collaboration, Economic Development, and Sustainability in the Arctic** Erokhin, Vasilii, Gao, Tianming, Zhang, Xiuhua, 2018-12-28 Global interest in the exploration of the Arctic has been growing rapidly. As the Arctic becomes a global resource base and trade corridor between the continents it is crucial to identify the dangers that such a boom of extractive industries and transport routes may bring on the people and the environment. The Handbook of Research on International Collaboration Economic Development and Sustainability in the Arctic discusses the perspectives and major challenges of the investment collaboration and development and commercial use of trade routes in the Arctic. Featuring research on topics such as agricultural production environmental resources and investment collaboration this book is ideally designed for policymakers business leaders and environmental researchers seeking coverage on new practices and solutions in the sphere of achieving sustainability in economic exploration of the Arctic region. **Tourism Destination**

Evolution Patrick Brouder, Salvador Anton Clavé, Alison Gill, Dimitri Ioannides, 2016-07-15 Outlining the need for fresh perspectives on change in tourism this book offers a theoretical overview and empirical examples of the potential synergies of applying evolutionary economic geography EEG concepts in tourism research. EEG has proven to be a powerful explanatory paradigm in other sectors and tourism studies has a track record of embracing adapting and enhancing frameworks from cognate fields. EEG approaches to tourism studies complement and further develop studies of established

themes such as path dependence and the Tourism Area Life Cycle The individual chapters draw from a broad geographical framework and address distinct conceptual elements of EEG using a diverse set of tourism case studies from Europe North America and Australia Developing the theoretical cohesion of tourism and EEG this volume also gives non specialist tourism scholars a window into the possibilities of using these concepts in their own research Given the timing of this publication it has great potential value to the wider tourism community in advancing theory and leading to more effective empirical research

Handbook of Research on Agricultural Policy, Rural Development, and Entrepreneurship in Contemporary Economies Jean Vasile, Andrei, Subic, Jonel, Grubor, Aleksander, Privitera, Donatella, 2019-11-29 Promoting rural entrepreneurship is a necessary step to limit the negative effects of classical agricultural policy based on a linear process and attracting secondary resources to the economic process The analysis of agricultural policy and rural development in conjunction to entrepreneurship in terms of production may represent a further step in understanding the role and importance of diversifying the rural potentials in contemporary economies The Handbook of Research on Agricultural Policy Rural Development and Entrepreneurship in Contemporary Economies is an essential publication of academic research that examines agricultural policy and its impact on shaping future resilient economy in rural areas and identifies green business models and new business patterns in rural communities Covering a range of topics such as entrepreneurship product management and marketing this book is ideal for researchers policymakers academicians economists agriculture professionals rural developers business investors and students

Mobilities in Remote Places Phillip Vannini, 2023-07-21 Mobilities in Remote Places explores the meanings challenges and opportunities of remoteness as practiced and experienced by those who live and work in some of the world's most remote communities As mobilities around the world proliferate in countless forms the meanings of remoteness undergo significant change Places once considered impossibly distant have appeared to become closer more accessible and less distinct from global centers of geopolitical power But instead of disappearing altogether configurations of remoteness evolve manifesting themselves through new possibilities new challenges and new insecurities Drawing from a variety of case studies from around the globe the contributors of the book examine remoteness as an outcome of evolving mobility constellations Rather than defining remoteness as an absolute or objective time distance condition the book shows how remoteness is a practice experience and representation that is situated relational and emergent This collection of original and thought provoking chapters will be of interest to students and researchers in the humanities and social sciences with an interest in mobilities place and human geography
