War In The Twentieth Century Library Of Theological Ethics:

War in the Twentieth Century Richard Brian Miller, 1992-01-01 A timely anthology by Christian ethicists and ecclesial groups who are concerned with the justice of war in the 20th century Seeking to sharpen our moral literacy about the ethics of war Pope Pius XII the Niebuhrs and U S Catholic and Methodist bishops address ethical issues relevant to modern warfare obliteration bombing selective conscientious objection and nuclear deterrence Conscience and Its Problems Kenneth E. Kirk, 1999-01-01 This book originally published in 1927 has proven to be one of the most important and influential books in the field of ethics in the twentieth century It remains a pertinent original and insightful work a landmark statement of modern casuistry The Library of Theological Ethics series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts in easily accessible form Volumes in this series will enable sustained dialogue with predecessors though reflection on classic works in the field Womanist Theological Ethics Katie Geneva Cannon, Emilie Maureen Townes, Angela D. Sims, 2011-01-01 Writing across theological disciplines nine African American women scholars reflect on what it means to live as responsible doers of justice With some classic essays and some contributions published here for the first time each chapter in this new volume in the Library of Theological Ethics series presents analytical strategies for understanding the story of womanist scholarship in the service of the black community The Library of Theological Ethics series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts in easily accessible form Volumes in this series will enable sustained dialogue with predecessors though reflection on classic works in the field African American Theological Ethics Peter J. Paris, Julius Crump, 2015-12-18 This volume in the Library of Theological Ethics series draws on writings from the early nineteenth through the late twentieth centuries to explore the intersection of black experience and Christian faith throughout the history of the United States The first sections follow the many dimensions of the African American struggle with racism in this country struggles against theories of white supremacy against chattel slavery and against racial segregation and discrimination The latter sections turn to the black Christian vision of human flourishing drawing on perspectives from the arts religion philosophy ethics and theology It introduces students to major voices from African American Christianity including Frederick Douglass Richard Allen W E B DuBois Marcus Garvey Martin Luther King Jr Bayard Rustin Barbara Jordan James H Cone and Jacqueline Grant This is the essential resource for anyone who wishes to understand the role that Christian faith has played in the African American struggle for a more just society Gospel of the Absurd Robert Scot Miller, 2017-08-02 Gospel of the Absurd is a project that originates in the anarchic experiences of a crack cocaine addict who was knocked off his high horse by an experience of Jesus Having spent years as an enemy of the faith R Scot Miller came back to faith with the passion of a new convert infused with a subversive s heart for turning the world upside down In the process of stumbling every bit as much as he learned to walk in the light Miller begins to understand that the subversive

claims of the gospel of Jesus as the Christ are not only the most meaningful response to the absurdity of the world but that such absurdity demands a community of action that makes the subversive Christ the credible response to a culture and Christendom run amok with power and greed Gospel of the Absurd is about an ethic informed by an absurd claim that being the claim that voluntary sacrifice of privilege is the proper response to human brokenness and the systems of domination that have lured the church into apostasy Miller then explores whether the church by prioritizing care ethics over legislative or coercive justice is the salvific experience Jesus is calling us to engage in **In Face of Reality** Thomas A. James, 2011-04-01 This study of the work of noted liberal theologian Gordon Kaufman tracks his career from his first published book *Relativism Knowledge and Faith* 1960 through his 2006 book *Jesus and Creativity* in light of recent conversations about divine action and modern scientific knowledge James interprets Kaufman's mature position as a sophisticated reconstruction of divine activity that makes use of recent scientific theory and its naturalistic assumptions in order to revitalize a theocentric frame of reference rooted in classical theological tradition Though there are costs to be paid in the construction of a theology of radical naturalism particularly with respect to the relation between divine action and the human good Kaufman's program offers a distinctive way forward After developing a critical analysis of the limitations and possibilities of Kaufman's mature position James suggests that a christological reconsideration of the meaning of human flourishing offers the prospect of an even more radically naturalistic and theocentric theology **The Encyclopedia of the Cold War** Spencer C.

Tucker, 2007-09-12 A comprehensive five volume reference on the defining conflict of the second half of the 20th century covering all aspects of the Cold War as it influenced events around the world The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references Under the direction of internationally known military historian Spencer Tucker ABC CLIO's *The Encyclopedia of the Cold War A Political Social and Military History* offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe From the Second World War to the collapse of the Soviet Union *The Encyclopedia of the Cold War* provides authoritative information on all military conflicts battlefield and surveillance technologies diplomatic initiatives important individuals and organizations national histories economic developments societal and cultural events and more The nearly 1 300 entries plus topical essays and an extraordinarily rich documents volume draw heavily on recently opened Russian Eastern European and Chinese archives The work is a definitive cornerstone reference on one of the most important historical topics of our time

Selections from Friedrich Schleiermacher's Christian Ethics Friedrich Schleiermacher, 2011-01-01 Brandt presents important selections from German theologian Schleiermacher's *Christian Ethics* a work that moves beyond formal matters to offer a comprehensive analysis of ethical issues including what constitutes moral action for individuals in relation to the family the state the school the church and society This edition also includes James Brandt's in depth introductory essay

describing the role of Christian Ethics in Schleiermacher's overall corpus its place in the history of Christian ethical reflection and its structure and character *Economic Justice* John Augustine Ryan, 1996-01-01 During the first half of the twentieth century John A Ryan advocated minimum wage legislation and child labor restrictions and was very much involved in Franklin D Roosevelt's New Deal More closely connected with the makers of national economic policy as a Catholic moral theologian than his better known Protestant contemporaries Walter Rauschenbusch and Reinhold Niebuhr his influence has been extensive in American public policy This volume brings to readers pertinent selections from Ryan's classic works It will be particularly relevant to today's readers concerned about the place of religious faith in economic policy *Battleground: Religion* Daniel L. Smith-Christopher, 2008-12-30 Is there a controversial issue in the contemporary world that does not involve religion Whether it's a debate over the beginning of life or on sexuality and family life or on the stewardship of humans over the environment almost all of the most contentious matters that impact today's society involve people's deeply held religious beliefs Battleground Religion helps clarify these complex topics by examining how various religious beliefs and practices impact current political social and cultural debates Each of the approximately 100 entries examines a hot button issue from war and peace to the culture wars and discusses in a balanced and objective way the points of view on these topics from all parts of the religious spectrum Students will come away from Battleground Religion with a better understanding of the issues that they will be encountering for years to come Each entry includes a bibliography or resources for further information
