War, Peace, and Christianity J. Daryl Charles, Timothy J. Demy, 2010-05-13 With issues of war and peace at the forefront of current events an informed Christian response is needed This timely volume answers 104 questions from a just war perspective offering thoughtful yet succinct answers Ranging from the theoretical to the practical the volume looks at how the just war perspective relates to the philosopher historian statesman theologian combatant and individual with particular emphases on its historical development and application to contemporary geopolitical challenges Forgoing ideological extremes Charles and Demy give much attention to the biblical teaching on the subject as they provide moral guidance A valuable resource for considering the ethical issues relating to war Christians will find this book's user friendly format a helpful starting point for discussion

The African American Challenge to Just War Theory R. Cumming, 2015-12-04 In this innovative treatment of the ethics of war Ryan P Cumming brings classical sources of just war theory into conversation with African American voices The result is a new direction in just war thought that challenges dominant interpretations of just war theory by looking to the perspectives of those on the underside of history and politics

A Basic Guide to the Just War Tradition Eric Patterson, 2023-10-17 This brief introduction surveys Christian thinking on an array of topics related to security and peace from a just war perspective Drawing primarily on Scripture and theology Eric Patterson explores the moral dimensions of order justice and peace in light of key Christian doctrines such as love of neighbor stewardship vocation and sphere sovereignty He also examines the perennial questions of civil disobedience terrorism revolution and holy war including a discussion of Israel's removal of the Canaanites and the Crusades and interacts with theological thinkers throughout Christian history The volume concludes with a treatment of punishment and restitution considering how these can help move a society toward conciliation While ideal as a textbook for courses on Christian ethics theology and politics and church and society this book will also appeal to pastors and lay readers questioning the morality of war and Christians involvement in force Christians who serve in government law enforcement and the military will also find helpful guidance for thinking theologically about their vocations

America and the Just War Tradition Mark David Hall, J. Daryl Charles, 2019-03-30 America and the Just War Tradition examines and evaluates each of America's major wars from a just war perspective Using moral analysis that is anchored in the just war tradition the contributors provide careful historical analysis evaluating individual conflicts Each chapter explores the causes of a particular war the degree to which the justice of the conflict was a subject of debate at the time and the extent to which the war measured up to traditional *ad bellum* and *in bello* criteria Where appropriate contributors offer post bellum considerations insofar as justice is concerned with helping to offer a better peace and end result than what had existed prior to the conflict This fascinating exploration

offers policy guidance for the use of force in the world today and will be of keen interest to historians political scientists philosophers and theologians as well as policy makers and the general reading public Contributors J Daryl Charles Darrell Cole Timothy J Demy Jonathan H Ebel Laura Jane Gifford Mark David Hall Jonathan Den Hartog Daniel Walker Howe Kerry E Irish James Turner Johnson Gregory R Jones Mackubin Thomas Owens John D Roche and Rouven Steeves The Gospel of Peace in a Violent World Shawn Graves, Marlena Graves, 2022-08-16 The gospel of Jesus Christ is the good news of peace Gathering contributions from theologians pastors and practitioners Shawn Graves and Marlena Graves cast a vision of Christian nonviolence in today's world not only responding to the realities of war but also offering a deeper understanding of peace a holistic shalom Military Necessity and Just War Statecraft Eric Patterson, Marc LiVecche, 2023-12-19 This book analyzes the concept of military necessity and just war thinking and argues that it should be seen as a vital moral principle for leaders The principle of military necessity is well understood in the manuals of modern militaries and is recognized in the war convention It is the idea that battlefield commanders should make every effort to win on a local battlefield within legal means and using proportionate and discriminating weapons and tactics Every legal textbook on war includes military necessity as a foundational principle within the jus in bello ethics of fighting war alongside principles of proportionality and distinction and it is taught in every Western military academy Even the International Committee of the Red Cross lauds the concept as a cardinal principle of warfare However unlike legal scholarship one can pick up a book by almost any just war thinker in philosophy theology or the social sciences and the concept is missing altogether in their literature This volume returns military necessity to just war thinking and lays out the argument for doing so Each contributor taps into one of the many dimensions of military necessity such as its relationship to jus ad bellum ethics of going to war categories e g right intention its relationship to jus in bello categories or its application in foreign policy and military doctrine Case studies in the book point out the practical moral dimensions of military necessity in cases from the targeted killing of terrorists to battlefield decisions that led to the use of the atomic bomb at Hiroshima This book will be of interest to students of just war theory military ethics statecraft and international relations **Just War and Christian Traditions** Eric Patterson, J. Daryl Charles, 2022-12-15 This much needed anthology contains historically informed insights and analysis about Christian just war thinking and its application to contemporary conflicts Recent Christian reflection on war has largely ignored questions of whether and how war can be just The contributors to Just War and Christian Traditions provide a clear overview of the history and parameters of just war thinking and a much needed and original evaluation of how Christian traditions and denominations may employ this thinking today The introduction examines the historical development of Christian just war thinking differences between just war thinking and the alternatives of pacifism and holy war distinctions among Christian thinkers on issues such as the role of the state and lesser evil politics and shared Christian theological commitments with public policy ramifications for example the priority of peace The chapters that follow outline from Catholic Orthodox

Lutheran Reformed Anglican Methodist Baptist and Anabaptist denominational perspectives the positions of major church traditions on the ethics of warfare The contributors include philosophers military strategists political scientists and historians who seek to engage various and distinctive denominational approaches to the issues of church and state war peace diplomacy statecraft and security over two thousand years of Christian history Just War and Christian Traditions presents an essential resource for understanding the Judeo Christian roots and denominational frameworks undergirding the moral structure for statesmanship and policy referred to as just war thinking This practical guide will interest students pastors and lay people interested in issues of peace and security military history and military ethics Contributors John Ashcroft Eric Patterson J Daryl Charles Joseph E Capizzi Darrell Cole H David Baer Keith J Pavlischek Daniel Strand Nigel Biggar Mark Tooley and Timothy J Demy

The Reformers on War, Peace, and Justice Timothy J. Demy, Mark J. Larson, J. Daryl Charles, 2019-09-23 Conflict and war were common during the Reformation era Throughout the sixteenth century rising religious and political tensions led to frequent conflict and culminated in the Thirty Years War 1618-48 that devastated much of Germany and killed one third of its population Some of the warfare as in central and southern Europe was between Christians and Muslims Other warfare in central and northwestern Europe was confessional warfare between Catholics and Protestants Religion was not the only cause of war during the period Revolts territorial ambitions and the beginnings of the contemporary nation state system and international order that emerged after the Treaty of Westphalia 1648 also fueled the trauma and tragedy of war In many ways the world of the Reformers and Protestant Reformation was a violent world and it was within such a sociopolitical framework that the Reformers and their followers lived worked and died This book introduces the teachings of the Protestant Reformers on war and peace in their context before offering relevant primary source readings

Just War Theory and Likelihood of Success Eric Patterson, Robert J. Joustra, 2025-11-25 This book analyzes the concept of likelihood of success in just war thinking and argues that if the concept should be retained it must be reconsidered within the overall whole of the tradition of just war The concept of likelihood of success has stood out as particularly troublesome to thinkers and practitioners in the just war tradition The idea while related to the other categories of just war such as proportionality and military necessity can at times be confused with being an absolute rather than a co belligerent criterion within the broader just war canon With such an abstraction justice can be collapsed into a kind of pragmatic calculation favoring the powerful and virtually invalidating insurrection rebellion or resistance This volume brings together scholars and experts from across the tradition to reconsider and reconceptualize the likelihood of success It analyzes this concept not only in light of the war in Ukraine and the war in Gaza but also in historical cases such as Thermopylae or the Russo Finnish Winter War It also examines how we categorize and calculate the likelihood of success and what after all we mean by success Further the volume considers how close or far from the target we should get or expect to get before claiming that a war is unjust or immoral and raises the issue of the destructiveness caused by defenders

themselves This book will be of interest to students of just war theory military ethics statecraft and international relations generally
