Daugherty III, Rhonda L. Kastor, 2021-07-07 Washington's Government shows how George Washington's administration the subject of remarkably little previous study was both more dynamic and more uncertain than previously thought Rather than simply following a blueprint laid out by the Constitution Washington and his advisors constructed over time a series of possible mechanisms for doing the nation's business The results were successful in some cases disastrous in others Yet at the end of Washington's second term there was no denying that the federal government had achieved remarkable results As Americans debate the nature of good national governance two and a half centuries after the founding this volume's insights appear timelier than ever Contributors Lindsay M Chervinsky Iona College Gautham Rao American University Kate Elizabeth Brown Huntington University Stephen J Rockwell St Joseph's College Andrew J B Fagal Princeton University Daniel Hulsebosch New York University Rosemarie Zagari George Mason University **Ethnographers Before Malinowski** Frederico Delgado Rosa, Han F. Vermeulen, 2022-06-10 Focusing on some of the most important ethnographers in early anthropology this volume explores twelve defining works in the foundational period from 1870 to 1922 It challenges the assumption that intensive fieldwork and monographs based on it emerged only in the twentieth century What has been regarded as the age of armchair anthropologists was in reality an era of active ethnographic fieldworkers including women practitioners and Indigenous experts Their accounts have multiple layers of meaning style and content that deserve fresh reading This reference work is a vital source for rewriting the history of anthropology **Resources in Education**, 1998 Register for Nineteen Hundred and Twelve Sons of the American Revolution.
