Wartime Understanding And Behavior In The Second World War:

Wartime Paul Fussell, 1989 An incisive unsentimental account of the emotional and psychological atmosphere of World War II and the war's effect on the literary world **Wartime** Paul Fussell, 1989 *Wartime* Paul Fussell, 1989

Wartime: Understanding and Behavior in the Second World War Paul Fussell, 1989-09-07 Winner of both the National Book Award for Arts and Letters and the National Book Critics Circle Award for Criticism Paul Fussell's *The Great War and Modern Memory* was one of the most original and gripping volumes ever written about the First World War Frank Kermode in *The New York Times Book Review* hailed it as an important contribution to our understanding of how we came to make World War I part of our minds and Lionel Trilling called it simply one of the most deeply moving books I have read in a long time In its panaramic scope and poetic intensity it illuminated a war that changed a generation and revolutionized the way we see the world Now in *Wartime* Fussell turns to the Second World War the conflict he himself fought in to weave a narrative that is both more intensely personal and more wide ranging Whereas his former book focused primarily on literary figures on the image of the Great War in literature here Fussell examines the immediate impact of the war on common soldiers and civilians He describes the psychological and emotional atmosphere of World War II He analyzes the euphemisms people needed to deal with unacceptable reality the early belief for instance that the war could be won by precision bombing that is by long distance he describes the abnormally intense frustration of desire and some of the means by which desire was satisfied and most important he emphasizes the damage the war did to intellect discrimination honesty individuality complexity ambiguity and wit Of course no Fussell book would be complete without some serious discussion of the literature of the time He examines for instance how the great privations of wartime when oranges would be raffled off as valued prizes resulted in roccoco prose styles that dwelt longingly on lavish dinners and how the high mindedness of the era and the almost pathological need to accentuate the positive led to the downfall of the acerbic H L Mencken and the ascent of E B White He also offers astute commentary on Edmund Wilson's argument with Archibald MacLeish Cyril Connolly's *Horizon* magazine the war poetry of Randall Jarrell and Louis Simpson and many other aspects of the wartime literary world Fussell conveys the essence of that wartime as no other writer before him For the past fifty years the Allied War has been sanitized and romanticized almost beyond recognition by the sentimental the loony patriotic the ignorant and the bloodthirsty Americans he says have never understood what the Second World War was really like In this stunning volume he offers such an understanding A Companion to the British and Irish Novel, 1945 - 2000 Brian W. Shaffer, 2008-04-15 A Companion to the British and Irish Novel 1945 2000 serves as an extended introduction and reference guide to the British and Irish novel between the close of World War II and the turn of the millennium Covers a wide range of authors from Samuel Beckett to Salman Rushdie Provides readings of key novels including Graham Greene's *Heart of the Matter* Jean Rhys's *Wide Sargasso Sea* and Kazuo Ishiguro's *The Remains of the Day* Considers particular subgenres such as the feminist novel and the

postcolonial novel Discusses overarching cultural political and literary trends such as screen adaptations and the literary prize phenomenon Gives readers a sense of the richness and diversity of the novel during this period and of the vitality with which it continues to be discussed *The Home Fronts of Iowa, 1939-1945* Lisa L. Ossian, 2009-10-16 As Americans geared up for World War II each state responded according to its economy and circumstances as well as the disposition of its citizens This book considers the war years in Iowa by looking at activity on different home fronts and analyzing the resilience of Iowans in answering the call to support the war effort With its location in the center of the country far from potentially threatened coasts Iowa was also the center of American isolationism historically Republican and resistant to involvement in another European war Yet Iowans were quick to step up and Lisa Ossian draws on historical archives as well as on artifacts of popular culture to record the rhetoric and emotion of their support Ossian shows how Iowans quickly moved from skepticism to overwhelming enthusiasm for the war and answered the call on four fronts farms factories communities and kitchens Iowa's farmers faced labor and machinery shortages yet produced record amounts of crops and animals even at the expense of valuable topsoil Ordnance plants turned out bombs and machine gun bullets Meanwhile communities supported war bond and scrap drives while housewives coped with rationing raised Victory gardens and turned to home canning *The Home Fronts of Iowa 1939-1945* depicts real people and their concerns showing the price paid in physical and mental exhaustion and notes the heavy toll exacted on Iowa's sons who fell in battle Ossian also considers the relevance of such issues as race class and gender particularly the role of women on the home front and the recruitment of both women and blacks for factory work taking into account a prevalent suspicion of ethnic groups by the state's largely homogeneous population The fact that Iowans could become loyal citizen soldiers forming an Industrial and Defense Commission even before Pearl Harbor speaks not only to the patriotism of these sturdy midwesterners but also to the overall resilience of Americans In unraveling how Iowans could so overwhelmingly support the war Ossian digs deep into history to show us the power of emotion and to help us better understand why World War II is consistently remembered as the Good War **The Army Historian**, 1993 **Army History**, 1992 *The Best War Ever* Michael C. C. Adams, 1994 Most valuable to students and general readers who have not given World War II serious study but who are interested in achieving a better understanding of America's experience in what Dwight D Eisenhower called the Great Crusade Register of the Kentucky Historical Society *German Rocketeers in the Heart of Dixie* Monique Laney, 2015-06-23 This thought provoking study by historian Monique Laney focuses on the U S government assisted integration of German rocket specialists and their families into a small southern community soon after World War II In 1950 Wernher von Braun and his team of rocket experts relocated to Huntsville Alabama a town that would celebrate the team despite their essential role in the recent Nazi war effort for their contributions to the U S Army missile program and later to NASA's space program Based on oral histories provided by members of the African American and Jewish communities and by the rocketeers families co workers friends and

neighbors Laney's book demonstrates how the histories of German Nazism and Jim Crow in the American South intertwine in narratives about the past. This is a critical reassessment of a singular time that links the Cold War, the Space Race, and the Civil Rights era while addressing important issues of transnational science and technology and asking Americans to consider their country's own history of racism when reflecting on the Nazi past.
