Science Researcher is designed to help aspiring social scientists including credentialed scholars understand the formidable complexities of the research process. Instead of explaining specific research techniques, it concentrates on the philosophical, sociological, and psychological dimensions of social research. These dimensions have received little coverage in guides written for social science researchers, but they are arguably even more important than particular analytical techniques. Truly sophisticated social science scholarship requires that researchers understand the intellectual and social contexts in which they collect and interpret information. While social science training in US graduate schools has become more systematic over the past two decades, graduate training and published guidance still fall short in addressing this fundamental need.

The Mindful Writing Workshop: Teaching in the Age of Stress and Trauma Richard Koch, 2019-04-17

Though life occurs in events, it must be written about in moments. Today's youth are growing up in an age of stress and trauma, and nowhere is that more apparent than in the classroom. Absenteeism, emotional distraction, passivity, and unresponsiveness are all signs of children in need. Thankfully, it turns out that the workshop classroom, with limited but essential tuning, can be just the environment students in the grip of trauma need to become comfortable in themselves and break through into active learning. In *The Mindful Writing Workshop: Teaching in the Age of Stress and Trauma*, Professor Richard Koch offers clear, comprehensive, guided lessons that help teachers gain the insight necessary to adapt their instruction of writing to incorporate restorative and healing practices—practices that can improve the quality of learning and writing for all learners. Accessible, straightforward, and empowering, the approaches presented in *The Mindful Writing Workshop* will help previously indifferent or distracted students become engaged, increase their effort, deepen their resilience, and soon raise the quality of their writing, all while guiding teachers in creating a positive, collaborative learning classroom.
