Theodore (Teddy) Roosevelt Theodore Roosevelt, 2016-12-27 After the death of his first wife Theodore Roosevelt headed to the western frontier eventually starting his own ranch in the Badlands of the Dakota Territory Spanning the years of 1884 1886 Roosevelt writes with incredible joy his experiences on the ranch his adventures of buffalo hunting his love for the common people of the west the rousing times of the round up and the daily life of the ranch Roosevelt credited his time in the Badlands of North Dakota as the reason for desiring to become the President of the United States of America *The Works of Theodore Roosevelt ...: Hunting trip of a ranchman. The Works of Theodore Roosevelt: Hunting trips of a ranchman ; Game shooting in the West ; Good hunting Theodore Roosevelt, 1923 *Theodore Roosevelt* Theodore Roosevelt, 2017-01-04 Next to the whitetail deer the black bear is the commonest and most widely distributed of American big game It is still found quite plentifully in northern New England in the Adirondacks Catskills and along the entire length of the Alleghenies as well as in the swamps and canebrakes of the southern States It is also common in the great forests of northern Michigan Wisconsin and Minnesota and throughout the Rocky Mountains and the timbered ranges of the Pacific coast In the East it has always ranked second only to the deer

among the beasts of chase The bear and the buck were the staple objects of pursuit of all the old hunters They were more plentiful than the bison and elk even in the long vanished days when these two great monarchs of the forest still ranged eastward to Virginia and Pennsylvania The wolf and the cougar were always too scarce and too shy to yield much profit to the hunters The black bear is a timid cowardly animal and usually a vegetarian though it sometimes preys on the sheep hogs and even cattle of the settler and is very fond of raiding his corn and melons Its meat is good and its fur often valuable and in its chase there is much excitement and occasionally a slight spice of danger just enough to render it attractive so it has always been eagerly followed Yet it still holds its own though in greatly diminished numbers in the more thinly settled portions of the country One of the standing riddles of American zoology is the fact that the black bear which is easier killed and less prolific than the wolf should hold its own in the land better than the latter this being directly the reverse of what occurs in Europe where the brown bear is generally exterminated before the wolf Theodore Roosevelt [Theodore Roosevelt's Ranch Life](#)
