Moore-Keish, 2020-06-22 This research guide introduces scholars to the field of Reformed theology focusing on works of the twentieth and twenty first centuries in the English language After a brief introductory section on the debates about what counts as Reformed theology Martha Moore Keish explores twenty one major theological themes with attention to classical as well as current works The author demonstrates that this stream of Protestantism is both internally diverse and ecumenically interwoven with other Christian families not just a single clearly defined group set apart from others In addition this guide shows that contemporary Reformed theology has been rethinking the doctrines of God humanity and their relationship in significant ways that

Hollingsworth Robin W Lovin Joshua Mauldin Friederike Nessel Mary Ellen O'Connell Douglas F. Ottati Stephen Pope Colleen Shantz Michael Spezio **Dogmatics after Babel** Ruben Rosario Rodriguez, 2018-10-09 Ruben Rosario Rodriguez addresses the long standing division between Christian theologies that take revelation as their starting point and focus and those that take human culture as theirs. After introducing these two theological streams that originate with Karl Barth and Paul Tillich respectively, Rosario asserts that they both seek to respond to the Enlightenment's critique and rejection of Christianity. In so doing, they have bought into Enlightenment understandings of human reality and the transcendent. Rosario argues that in order to get beyond the impasse between theologies of the Word and culture, we need a different starting point. He discovers that starting point in two sources: 1 through the work of liberation and contextual theologians on the role of the Holy Spirit and 2 through a comparative analysis of the teachings on the hiddenness of God from the three Abrahamic religions: Judaism, Christianity, and Islam. Rosario offers a strong argument for why this third theological starting point represents not just a marginal or niche position but a genuine alternative to the two traditional theological streams. His work will shift readers' understanding of the options in theological discourse beyond the false alternatives of theologies of the Word and culture.

The Task of Dogmatics Zondervan, 2017-11-21 Defining the Nature, Process, and Mission of Dogmatic Discourse. Theologians often discuss method in a remote and preliminary way that suggests they are not yet speaking theologically when speaking methodologically. But it is also possible to reflect on the work of Christian dogmatics in a way that is self-consciously nourished by biblical reasoning, resourced by tradition, joined up with ecclesial practice, and alert to spiritual dynamics. Bringing together theologians who are actively engaged in the writing and editing of extended dogmatics projects, *The Task of Dogmatics* represents the proceedings of the 2017 Los Angeles Theology Conference and seeks to provide constructive accounts of the nature of the dogmatic task. The eleven diverse essays in this collection include discussions on identifying theology's pattern and norm; the validity and relativity of doctrinal statements; the Apostle Paul and the task of dogmatics; the retrieval of patristic and medieval theology. Each of the essays collected in this volume engages with Scripture as well as with others in the field, theologians both past and present from different confessions, in order to provide constructive resources for contemporary systematic theology and to forge a theology for the future.

The Providence of God David Fergusson, 2018-08-30 An exploration of the theology of divine providence that is both critical and constructive in its outcomes.

Disability's Challenge to Theology Devan Stahl, 2022-08-15 *Disability's Challenge to Theology* uses insights from disability studies to understand in a deeper way the ethical implications that genetic technologies pose for Christian thought. Theologians have been debating genetic engineering for decades, but what has been missing from many theological debates is a deep concern for persons with genetic disabilities. In this ambitious and stimulating book, Devan Stahl argues that engagement with metaphysics and a theology of nature is crucial for Christians to evaluate both genetic science and the moral use of genetic technologies such as human genetic engineering, gene therapy, genetic screenings.

preimplantation genetic diagnosis and gene editing Using theological notions of creation ex nihilo and natural law alongside insights from disability studies Stahl seeks to recast the debate concerning genetic well being Following the work of Stanley Hauerwas Stahl proposes the church as the locus for reimagining disability in a way that will significantly influence the debates concerning genetic therapies Christianity has all too frequently been complicit in excluding degrading and marginalizing people with disabilities but the new Christian metaphysics developed here provides normative theological guidance on the use of genetic technologies today Only by heeding the voices of people with disabilities can Christians remain faithful to the call to find Christ in the least of these and from there draw closer to God A Theology for the Twenty-First Century Douglas F. Ottati, 2020-10-15 Christianity in the United States is in crisis Liberalism is declining evangelicalism is splintering increasing numbers of Christians are slipping away from churches and more and more young people are for various reasons finding Christianity as they conceive it a metaphysical thought system or society of science deniers or an ideology for oppressors not just implausible but repellent At the same time Christians across denominational and ideological divides are rediscovering a moral core especially in the Jesus of the Gospels that reactivates and unites them and this kind of faith appeals to many who consider themselves averse to all traditional organized religion But any revitalized Christian faith is going to need to understand its rootedness in and interpretation of Christianity's foundational texts and traditions Noted theologian Douglas F Ottati steps in to offer a theology for this new era Combining deep learning in texts and traditions with astute awareness of contemporary questions and patterns of thought and life he asks what does it mean in our time to understand the God of the Bible as Creator and Redeemer Distilling the content of Christian faith into seventy concise propositions he explains each in lucid cogent prose A Theology for the Twenty First Century will be an essential textbook for those training for ministry in our current climate a wise guide for contemporary believers who wonder how best to understand and communicate their faith and an inviting and intelligent resource for serious inquirers who wonder whether the way of Jesus might help them grasp the real world while remaining open to the transcendent *The Oxford Handbook of Reformed Theology* Michael Allen, Scott R. Swain, 2020 A comprehensive study of Reformed theology spanning historical contexts to contemporary discussions Contributors provide a range of theological essays to assess representative texts of the Reformed tradition Explores the intricate ties between patristic medieval and modern thought in Reformed theology Accessible authoritative and clearly organized Book jacket *The Radical Teaching of Jesus* Duncan S. Ferguson, 2016-01-18 The Radical Teaching of Jesus carefully and thoughtfully invites the reader into an understanding of the life and teachings of Jesus Both his life and teachings are radical in that Jesus intended those who observed his life and heard his teachings to make a major change in their lives by fully receiving the power and presence of God The implications of this transformation would result in a life of loving God with heart and mind and one's neighbor without condition This volume underlines that to have a full understanding of the implications of the radical teaching of Jesus requires a careful reading of the history of the

Gospel records of the circumstances in which Jesus lived and of Jesus sense of vocation This understanding makes possible a more credible and nuanced grasp of the style and content of the life and teaching of Jesus and its extraordinary relevance for our rapidly changing and troubled global context The book speaks poignantly both to those within the Christian family who find traditional categories regarding Jesus increasingly difficult to affirm and to those of other faith traditions or religious unaffiliated who seek an authentic spiritual way

Generous Orthodoxies Paul Silas Peterson, 2020-04-30 After the birth of the Protestant ecumenical movement in the late nineteenth and early twentieth centuries and following the first great wave of universal Christian ecumenism in the 1960s and 1970s after the Second Vatican Council prominent theologians of nearly every ecclesial tradition charted new territory in the last decades of the twentieth century They crossed boundaries within their own ecclesial traditions and built bridges to other Christian churches churches that were once excluded from fellowship In the development of these new programs of ecumenical theology the theologians redefined their own confessional identities and in many cases crossed the liberal conservative divide within their own traditions This volume introduces this fascinating dynamic of theological mediation redefinition and generosity It shows how the ecumenical impulses which were directed outwardly to other traditions had reflexive effects inwardly Working in the realms of both historical and systematic theology the essays in this volume provide a critical analysis of the history of this general theological sentiment and offer an outlook for its future Contributors Brian D McLaren Foreword Paul Silas Peterson Introduction Part One Ecumenical reform theologies Andrew Meszaros Yves Congar The Birth of Catholic Ecumenism Matthew L Becker Edmund Schlink Ecumenical Theology Dorothea Sattler Otto Hermann Pesch Ecumenical Scholasticism Ronald T Michener George Lindbeck Ecumenical Unity through Ecclesial Particularity Nikolaos Asproulis John D Zizioulas A Pioneer of Ecumenical Dialogue and Christian Unity Part Two Overcoming liberal conservative polarities Ben Fulford Hans Frei Beyond Liberal and Conservative Friederike Nüssel Wolfhart Pannenberg Liberal Orthodoxy Jay T Smith Stanley J Grenz The Evangelical Turn to Postliberal Theological Method Part Three Boundary crossings in philosophical systematic and ethical theology William E Myatt David Tracy Difference Unity and the Analogical Imagination Christophe Chalamet Robert Jenson God's Way and the Ways of the Church Victoria Lorrimar Stanley Hauerwas Witnessing Communities of Character Christine M Helmer Marilyn McCord Adams Philosophy Theology and Prayer Part Four Ecumenical theology today Wolfgang Vondray Pentecostalism and Christian Orthodoxy Revision Revival and Renewal Johanna Rahner Shifting Paradigms Future Ecumenical Challenges Michael Amaladoss Theology today in India Ecumenical or interreligious Bernd Oberdorfer Next Steps and Visions Lutheran Perspectives on Doctrinal Ecumenism

Theology and the First Theory of Sacrifice Ivan Strenski, 2003-11-01 Are social scientific theories and confessional theologies of sacrifice equally well suited as public discourse about religion The French liberal Protestant theologians of the 5th Section of the *cole Pratique* and the French doyen of sociology mile Durkheim and his two main followers Henri Hubert and Marcel Mauss engage in a struggle over the proper approach to sacrifice in the

public university The Durkheimians argued that theological language and assumptions were inappropriate for this purpose because of their confessional allegiances Another approach to sacrifice free of confessional entanglements was required This is what Hubert and Mauss sought to provide in the *Sacrifice Its Nature and Function*

God Hovered Over the Waters

William A. dePrater, 2015-03-25 On March 11 2011 from deep within the earth's crust enormous forces drove tectonic plates toward over another In the collision one plate riding over the other displaced massive amounts of water The displaced water began racing toward the Japanese shoreline each mile exponentially increasing in its fury Coming ashore in Japan the tsunami swept aside everything in its path as if they were small toys In sixteenth century Europe there also was a collision of changing environmental technological educational and political forces Like the energy created by colliding tectonic plates in 2011 these surging and chaotic waters emerged from within the depths of human experiences and spiritual yearnings Through the guiding hands of the Holy Spirit these waters swept up the Reformation movement emptying it into theological lakes and streams across Europe Therefore to understand the Reformation movement one needs to comprehend these varied forces that moved it into reality The book further details the resulting contributions of the Reformation movements within Germany Switzerland the British Isles France and the Netherlands In conclusion the author addresses the lasting legacy of the Reformation for contemporary society and the means for a new congregational and governing body Reformation today

T&T Clark Handbook of the Doctrine of Creation, 2024-03-07 The T how the doctrine of creation informs and is informed by various dogmatic commitments and how the doctrine of creation relates to a range of human concerns and activities The Handbook represents a celebration of fascination with bewilderment at lament about and hope for all that is and serves as a scholarly innovative and constructive reference for those interested in attending to what Christian belief has to contribute to thinking about and living with the mysterious existence named creation

The Transcendence of Desire

Tom James, David True, 2023-11-28 The secular age is not a smooth untroubled process of accumulation and advance but an uneven and unpredictable series of clashes of interest Charles Taylor's immanent frame cannot be construed merely as a phenomenon within religion and culture but urgently needs to be understood in political and economic terms i.e. as a class project The failure of the secular vividly displayed in the crumbling legitimacy of global institutions and in the spectacle of police violence both calls for and makes possible a renewal of political agency Tom James and David True argue that a theology of the cross has a distinctive potential today it can pierce the sacred aura of normalcy around the consensual anti-politics of the neoliberal order so that a vision of a world beyond today's racialized capitalism can emerge But they contend that we don't need to forsake the emancipatory aims of modernity nor retreat to local communities As an alternative to these weak strategies they offer a constructive and cruciform account of political agency that includes both prophetic resistance and practical wisdom each embedded in contemporary struggles for freedom that they argue embody divine desire for a common world

The Radical Invitation of Jesus Duncan S. Ferguson, 2019-07-02 The book addresses the way we are able

to understand the radical invitation of Jesus The invitation is to those who heard Jesus in the first century the intervening centuries and those in the twenty first century urging them to turn away from a life that is self centered and to seek a life that is God centered accepting the reign of God in one s life rather than wealth pleasure power and fame Jesus says that we are to seek first the kingdom of God and all of our basic needs will be met being transformed and finding meaning and purpose in our lives The invitation is radical in that it calls on us to give up the accepted norms and values of our culture and world and give ourselves to a life of integrity and truthfulness love and compassion and justice and peace We are invited to find our true identity to be filled with and transformed by the God of love and to become one who is filled with grace and truth as Jesus was

A History of the Christian Tradition: From the Reformation to the present Thomas C. McGonigle, James F. Quigley, 1988 Thomas McGonigle and James Quigley present us with a history of Christian belief and institutions from the Reformation to Vatican II and beyond

Forbearance James Calvin Davis, 2017 Offers a faithful constructive way to deal with dissent What happens when we approach disagreement not as a problem to solve but as an opportunity to practice Christian virtue In this book James Calvin Davis reclaims the biblical concept of forbearance to develop a theological ethic for faithful disagreement Pointing to Ephesians and Colossians in which Paul challenged his readers to bear with each other in spite of differences Davis draws out a theologically grounded practice in which Christians work hard to maintain unity while still taking seriously matters on which they disagree The practice of forbearance Davis argues offers Christians a dignified graceful and constructive way to deal with conflict Forbearance can also strengthen the church s public witness offering an antidote to the pervasive divisiveness present in contemporary culture

Catholics and Evangelicals for the Common Good Ronald J. Sider, Dr. John Borelli, 2018-11-07 For centuries evangelical Protestants and Catholics have hurled harsh epithets at each other But that has changed dramatically in the last forty years In 1960 many prominent evangelicals opposed John Kennedy for president because he was a Catholic Today Catholics and evangelicals work together on many issues of public policy This book records one important process in this transformation In 2004 the board of The National Association of Evangelicals NAE the largest representative body of evangelicals in the US unanimously approved For the Health of the Nation as the official public policy document for its public policy efforts representing 30 million evangelicals When scholars read this new ground breaking document they quickly realized there was widespread agreement between the NAE s official public policy document and the official public policy positions of American Catholics The result was a series of annual meetings held at Georgetown University and Eastern University that brought together prominent Catholic and Evangelical scholars and public policy specialists to explore the extent of the common ground This book reports on that dialogue and its contribution to the increasing Catholic evangelical cooperation
