Latino Access to Higher Education Martin Guevara Urbina, Claudia Rodriguez Wright, 2015-10-01 While the black and white racial experience has been delineated over the years, the ethnic realities of Latinos have received minimal attention. Therefore, with Latinos projected as the upcoming U.S. population majority, the central goal of this book is to document the Latino experience in the world of academia, focusing primarily but not exclusively on first-generation Latino students in higher education, delineating the dynamics of the educational journey while situating their experiences within the ethnic community, the overall American society and the international community. The text focuses on: 1. ethnic realities including Latino student access to higher education, retention, graduation rates and career success; 2. analysis of historic trends; 3. extensive review of prior empirical studies; 4. a holistic portrayal of education in the U.S.; 5. a qualitative study conducted in an institution of higher education in Texas, placing the stories of participating Latino students in theoretical context; 6. vivid documentation of historically entrenched racial ideologies in American education; 7. exploration of potential solutions to historical and contemporary barriers confronting Latino students; 8. development of a model of empowerment for Latino students; 9. information for the establishment of a balanced educational system; 10. accountability of higher education institutions; 11. review of revolutionizing education in the midst of current globalization; and 12. venturing into the future of Latino education in the overall American experience. Finally, the book seeks to examine not only America's racism that is evident but also the structural, cultural and ideological forces that have influenced and continue to perpetuate the current educational situation for Latinos.

Aged-Out Foster Youths' Exposure to Spiritual Foster Homes and Transition into Adulthood Dr. Valerie E.D. Sims, 2025-10-01 The research problem addressed through this study was whether exposure to spirituality in foster homes was related to daily functioning outcomes: socioeconomic status, family connections, life satisfaction and low retention rate of familial traumatization in former foster youth as they transitioned to adulthood. In 2021, 49,118 youth were in foster care in California. Youth in Care 2011-2021. Although studies have examined spirituality and foster youth, previous studies lacked specific outcomes of foster youth as they progressed into adulthood. Andrade 2014. Further, the articles noted in this book what is known about foster care and spirituality regarding behaviors and life outcomes.
