Theories Of Inclusive Education A Students Guide

Peter Clough, Cathy Nutbrown

Theories Of Inclusive Education A Students Guide:

Theories of Inclusive Education Peter Clough, Jenny Corbett, 2000 This book traces the major stages of thinking in the development of inclusive education It provides overviews of the main theoretical influences the medico psychological model sociological positions curriculum studies school effectiveness and the impact upon policy and practice of the Disability Movement Positioned and discussed in their historical contexts the book provides a synopsis and critique of the last 50 years including the introduction of the term Special Educational Needs the practice of integration and the present processes of inclusive education The unique features of this book include personal reflections by a number of people who are considered to have had major influence in the Disability & the Politics of Education Susan Lynn Gabel, Scot Danforth, 2008 *Disability and the Politics of Education An International Reader* is a rich resource that deals comprehensively with the many aspects of the complex topic of disability studies in education For nearly two decades global attention has been given to education as a human right through global initiatives such as Education for All EFA and the Salamanca Statement Yet according to UNESCO reaching the goals of EFA remains one of the most daunting challenges facing the global community Today millions of the world's disabled children cannot obtain a basic childhood education particularly in countries with limited resources Even in the wealthiest countries many disabled children and youth are educationally segregated from the nondisabled particularly if they are labeled with significant cognitive impairment International agencies such as the United Nations and the World Bank have generated funds for educational development but unfortunately these funds are administered with the assumption that west is best thereby urging developing countries to mimic educational policies in the United States and the United Kingdom in order to prove their aid worthiness This McDonaldization of education reproduces the labeling resource allocation and social dynamics long criticized in disability studies The authors in this volume explore these subjects and other complexities of disability and the politics of education In doing so they demonstrate the importance and usefulness of international perspectives and comparative approaches A Student's Guide to Methodology Peter Clough, Cathy Nutbrown, 2012-03-21 Essential for anyone undertaking a dissertation or thesis this title presents clear and straightforward information and advice on the process and functions of methodology *Teaching and Supporting Children with Special Educational Needs and Disabilities in Primary Schools* Jonathan Glazzard, Jane Stokoe, Alison Hughes, Annette Netherwood, Lesley Neve, 2015-03-10 If you are a primary trainee or are training to support children in primary schools this is your guide to working with children with Special Educational Needs and Disabilities SEND We begin by exploring what is meant by SEND in primary schools and go on to cover all you need to know about your statutory responsibilities in school Current legislation and the Code of Conduct are covered to give you lots of information about the content you will be working in The book then examines the range of needs you will encounter in primary schools giving you details information and practical advice This second edition has been fully restructured and updated to include a new section on the key theory relating to SEND Exploring theories and

theorist that you will need to know about to fully understand how to support children Also new for this edition is a chapter focusing on the role of the SENCO in the primary school Finally the book includes more practical support to help you in the classroom Checklists to help you to work comprehensively and information about useful resources and outside agencies

The Irregular School Roger Slee,2011-04-19 The Irregular School explores the foundations of the current controversies and argues that continuing to think in terms of the regular school or the special school obstructs progress towards inclusive education

Implementing Intensive Interaction in Schools Mary Kellett,Melanie Nind,2013-01-11 First Published in 2003 By taking a detailed look at the implementation and management of Intensive Interaction the authors of this book offer practical guidance on how to get the most from the approach in the school context This book includes guidance on managing priorities training issues power dynamics and coping with Ofsted advice on setting up and running evaluation projects clear links to the National Curriculum for SEN case studies from special and mainstream school and a glossary of terms This book is for practitioners coordinators and managers in schools using Intensive Interaction with pupils who have severe and complex learning difficulties

Disability Studies Colin Cameron,2013-11-12 This textbook brings together a wide range of expert voices from the field of disability studies and the disabled people s movement to tackle the essential topics relevant to this area of study From the outset disability is discussed from a social model perspective demonstrating how future practice and discourse could break down barriers and lead to more equal relationships for disabled people in everyday life An interdisciplinary and broad ranging text the book includes 50 chapters on topics relevant across health and social care Reflective questions and suggestions for further reading throughout will help readers gain a critical appreciation of the subject and expand their knowledge This will be valuable reading for students and professionals across disability studies health nursing social work social care social policy and sociology

Teaching Languages to Students with Specific Learning Differences Judit Kormos,Anne Margaret Smith,2023-10-10 This book is intended to help language teachers to work effectively and successfully with students who have Specific Learning Differences SpLDs It enables teachers to gain a thorough understanding of the nature of SpLDs and how these affect both general learning processes and the mechanisms of second language acquisition In addition the book explores the particular inclusive methods and techniques of teaching and assessment that foster success in language learning Language teaching is embedded in a wider social and educational context and therefore the book also provides an in depth discussion of general educational issues related to identifying and disclosing disabilities and to making transitions from one institution to the other The content has been thoroughly updated and revised for the second edition particularly in the areas of inclusive pedagogies new evidence based methods and tools for identifying SpLDs and new conceptualisations of neurodiversity The book also includes the latest research on assessment transition and progression and the impact of SpLDs on additional language learning

Inclusive Education in African Contexts Nareadi Phasha,Dikeledi Mahlo,George J. Sefa Dei,2017-04-13 How do we articulate the possibilities limitations and

challenges of inclusive schooling and education in African contexts This book insists that inclusive education cannot be taken for granted Inclusion is neither a natural nor a given educational practice It must be struggled for Bringing a critical perspective to inclusive schooling and education is imperative This book adds to current educational debates with an African lens It engages inclusive education from multiple lenses of curriculum content classroom pedagogy and instruction representation culture environment and the socio organization life of schools the pursuit of equity and social justice and the search for educational relevance It is opined that Africa cannot be left behind in rethinking educational inclusion in ways that evoke critical questions of power equity and social difference The question of learner's identity in terms of class gender sexuality disability language ethnicity and race are equally consequential for African schooling and education When inclusion is understood as wholeness of education then how schooling and education engage the complete learner her his body mind soul and spirit as well as the use of local community and Indigenous knowledges in teaching and learning become relevant Inclusion stands the risk of liberal educational agendas that simply tinker or toy with schooling and education and hardly embrace the challenge of educational change What we need is a fundamental structural change that ensures schooling and education embraces difference while grappling with the teaching of Indigeneity decolonization and resistance

The Universal Access Handbook Constantine Stephanidis, 2009-06-11 In recent years the field of Universal Access has made significant progress in consolidating theoretical approaches scientific methods and technologies as well as in exploring new application domains Increasingly professionals in this rapidly maturing area require a comprehensive and multidisciplinary resource that addresses current principles

Challenging Inclusive Education Policy and Practice in Africa, 2018-11-26 It is a fundamental right for all children to be given access to quality education to ensure they reach their full potential as individuals a right which is reflected in international law in Article 26 of the Universal Declaration of Human Rights and supported by the Education for All Agenda 1990 and the United Nations Convention on the Rights of People with Disabilities and Optional Protocol 2006 Nation states across Africa have signed up to these protocols and remain committed to ensuring education for all children The progress globally however in the past 25 years including in Africa has been slow UNESCO 2015 Questions remain on why this is so and what can be done about it This book brings together researchers education policy makers and academics from the African community What is unique about this text is that it includes local insights narrated and critiqued by local professionals This book presents a wide range of African countries across the continent to provide a critical overview of the key issues affecting developments It questions the origins of ideas and definitions around inclusive education and the impact it has made on policy and ultimately practice within local socio cultural and economic communities both urban and rural It highlights positive developments as well as challenges and provides a deep understanding of why the process of implementing inclusive education is so complex in the African continent It provides an understanding of what is needed to develop a more sustainable model of inclusive education across the continent and

within specific countries Inclusive Education in Low-Income Countries Lilian Mariga,Roy McConkey,2014-04-02 The history of people with disabilities has been dominated by their isolation and exclusion The long fight towards inclusion and inclusive education in particular started not many years ago Most were powerless to control their own destiny Their participation in society has been the object of others actions In many countries their disability policies have a substantial element of protection and charity but not the right to equalisation of opportunities This book highlights the process of change that is underway internationally The equalisation of opportunities requires new processes through which the various systems of society such as health services and education are delivered It means the right for people with disabilities to remain in their communities and to receive the schooling and social supports they need within the ordinary structures available in local communities Strong advocacy is needed for this to happen In particular parents need to be empowered communities mobilised and professionals trained in new ways of working hence this book Drawing on experiences in Africa the book describes the issues to be considered when it comes to implementing inclusive strategies the processes to be followed and the roles of different sectors such as people with disabilities parents policy makers educationalists health and community development professionals and crucially society at large **Essential Theory for Primary Teachers** Lynne Graham-Matheson,2014-11-20 Essential Theory for Primary Teachers is a succinct accessible introduction to the key theories concepts and policies that have shaped primary education as we know it and underpin our practice in the classroom Written with the ever busy training and practising teacher in mind this straightforward guide offers the foundations for a solid understanding of how we teach and learn effectively and how we develop as professionals Together with key further reading highlights a glossary of acronyms and an at a glance timeline of the major events acts and policies in education it explains core topics A short history of the education system What is education for Inequality and education Special educational needs and inclusion Child development How children learn Theories of motivation Behaviour for learning Assessment for learning Understanding and using research evidence Undertaking your own action research project Essential Theory for Primary Teachers brings together in one volume theory and knowledge that stands the test of time it guides you through what others have said about them and will help you relate them to your own practice A much needed source of guidance for training and newly qualified teachers it will support you as you develop the skills you need to teach confidently and help your learners succeed *Must Inclusion be Special?* Jonathan Rix,2015-06-05 Must Inclusion be Special examines the discord between special and inclusive education and why this discord can only be resolved when wider inequalities within mainstream education are confronted It calls for a shift in our approach to provision from seeing it as a conglomeration of individualised needs to identifying it as a conglomeration of collective needs The author examines the political medical and cultural tendency of current times to focus upon the individual and contrasts this with the necessity to focus on context This book distinguishes the theoretical perspectives that are often associated with special or inclusive education and the broad range of

interests which depend upon their ongoing development This examination leads to a problematisation of mainstream education provision our understanding of why social inequities emerge and how additional support can overcome these inequities Further chapters explore the underlying challenges which emerge from our use and understanding of the notions of special and inclusive outlining an alternative approach based upon a community of provision This approach recognises the interconnectedness of services and the significance of context and it encapsulates the aspiration of much international legislation for participation and inclusion for all But it also assumes that we tend towards diffuse practices services policies settings and roles spread across provision which is variously inclusive and exclusionary In seeking to create equitable participation for all support needs to shift its focus from the individual to this diffuse network of contexts Must Inclusion be Special emerges from the research base which problematises inclusion and special education drawing upon examples from many countries It also refers to the author s research into pedagogy language and policy and his experiences as a teacher and the parent of a child identified with special educational needs

Education Studies Steve Bartlett, Diana Burton, 2003-02-25 The essays are thematically well organized and lucidly presented In terms of design contents and presentation this is undoubtedly an excellent textbook Journal of Educational Planning and Administration Education Studies Essential Issues is a book similar in style to the editor s first volume Introduction to Education Studies both books introducing a variety of broad educational issues while analyzing certain areas in greater depth Whereas the first book dealt with wider perspectives on education i e research politics and policy psychological theory this book deals with more specific issues with chapters viewing education through early years and compulsory schooling to post compulsory and higher education through to lifelong learning Ultimately this book is quite unique due to the collection of chapters and is a worthy addition to any university bookshelf or as a key text for mandatory education modules Scott Buckler University of Worcester for Escalate This book is essential reading for all those concerned about education especially for those working within the education system International Journal of Educational Management Education Studies is an informed and informative introduction Teachers as well as student teachers will find it stimulating and valuable Topics it covers well include teacher management and teacher professionalism Michael Duffy Times Educational Supplement This key text provides an overview of current theoretical issues areas of study and major themes that are covered in education studies programmes Chapters include globalization differentiation early childhood special needs citizenship and education lifelong learning post compulsory education higher education management and professionalism in teaching education and economic development Prominent contributors in each field provide students with a solid grounding in the areas they will be studying and point the way to further successful study Also by same author Introduction to Education Studies Steve Bartlett Diana Burton Nick Peim C 0 7619 7015 0 60 00 2001 P 0 7619 7016 9 17 99 2001

Autism and the Social World of Childhood Carmel Conn, 2014-03-05 A key issue for researchers and practitioners is how to support the social engagement of children with

autism in ordinary everyday social processes that are transactional in nature and involve mixed groups of children with and without autism in rich and varied relationships Autism and the Social World of Childhood brings together current understandings about the social engagement of children with autism gained from psychology based research into autism with well established ideas about children s everyday social worlds gained from sociocultural theories of childhood It describes the experiences of interaction friendship and play from children s own point of view as a way of giving insight into children s lives as they are lived and understood by them Such an understanding serves to inform educational practice and aids the provision of more effective learning environments Autism and the Social World of Childhood includes sections on the nature of play social interaction and friendship in autism the nature of children s ordinary social worlds including children s cultures of communication and variation in children s play research approaches to investigating the social engagement of children with and without autism in natural contexts educational approaches to supporting the integration of children with autism within a school setting the importance of assessment in autism education Autism and the Social World of Childhood includes real life descriptions of children s social experiences taken from ethnographic research into the play and interaction of children with and without autism Practical guidance is provided on educational approaches to supporting the inclusion of children with autism within the ordinary social worlds of childhood
