Thinking Small The United States And The Lure Of Community Development

Michal Rosen-Zvi

Thinking Small The United States And The Lure Of Community Development:

Thinking Small Daniel Immerwahr,2015-01-05 Daniel Immerwahr tells how the United States sought to rescue the world from poverty through small scale community based approaches He also sounds a warning such strategies now again in vogue have been tried before alongside grander modernization schemes with often disastrous consequences as self help gave way to crushing local oppression

Democracy's Think Tank Brian S. Mueller,2021-07-02 This book is an institutional history of the Institute for Policy Studies one of the first Washington DC think tanks and a model for other think tanks The founders intended IPS to be a clearinghouse of information for activists outside DC that would help them do their work

The Cambridge History of America and the World: Volume 4, 1945 to the Present David C. Engerman,Max Paul Friedman,Melani McAlister,2022-03-03 The fourth volume of The Cambridge History of America and the World examines the heights of American global power in the mid twentieth century and how challenges from at home and abroad altered the United States and its role in the world The second half of the twentieth century marked the pinnacle of American global power in economic political and cultural terms but even as it reached such heights the United States quickly faced new challenges to its power originating both domestically and internationally Highlighting cutting edge ideas from scholars from all over the world this volume anatomizes American power as well as the counters and alternatives to the American empire Topics include US economic and military power American culture overseas human rights and humanitarianism third world internationalism immigration communications technology and the Anthropocene

The Peace Corps in South America Fernando Purcell,2019-08-23 In the 1960s twenty thousand young Americans landed in South America to serve as Peace Corps volunteers The program was hailed by President John F Kennedy and by volunteers themselves as an exceptional initiative to end global poverty In practice it was another front for fighting the Cold War and promoting American interests in the Global South This book examines how this ideological project played out on the ground as volunteers encountered a range of local actors and agencies engaged in anti poverty efforts of their own As they negotiated the complexities of community intervention these volunteers faced conflicts and frustrations struggled to adapt and gradually transformed the Peace Corps of the 1960s into a truly global decentralized institution Drawing on letters diaries reports and newsletters created by volunteers themselves Fernando Purcell shows how their experiences offer an invaluable perspective on local manifestations of the global Cold War

Handbook of Inclusive Innovation Gerard George,2019 The Handbook of Inclusive and Social Innovation The Role of Organizations Markets and Communities offers a comprehensive review of research on inclusive innovation to address systemic and structural issues the Grand Challenges of our time With 27 contributions from 57 scholars the Handbook provides frameworks and insights by summarising current research and highlights emerging practices and scalable solutions The contributions highlight a call to action and place social impact at the heart of theory and practice It will be an invaluable resource for academics practitioners and policymakers who champion social inclusion and

emphasize innovative approaches to addressing sustainable development goals *The Winds of History* Andreas Zeman, 2023-10-24 Based on extensive archival research in six countries and intensive fieldwork the book analyzes the history of the village of Nkhlongue on the eastern Mozambican shores of Lake Malawi from the time of its formation in the 19th century to the present day The study uses Nkhlongue as a microhistorical lens to examine such diverse topics as the slave trade the spread of Islam colonization subsistence production counter insurgency decolonization civil war ecotourism and matriliney Thereby the book attempts to reflect as much as possible on the generalizability and global comparability of local findings by framing analyses in historiographical discussions that aim to go beyond the regional or national level Although the chapters of the book deal with very different topics they are united by a common interest in the social history of rural Africa in the longue dur e Contrary to persistent clichés of rural inertia in Africa the book as a whole underscores the profound changeability of social conditions and relations in Nkhlongue over the years and highlights how people's room for maneuver kept changing as a result of the Winds of History the frequent and often violent ruptures brought to the village from outside

The Price of Aid David C. Engerman, 2018-02-19 This study of US and Soviet aid efforts in India during the Cold War makes a major contribution towards a necessary discussion of the politics of aid Times Higher Education Debates over foreign aid are often strangely ahistorical Economists argue about how to make aid work while critics bemoan money wasted on corruption ignoring the fundamentally political character of aid The Price of Aid turns the standard debate on its head By exposing the geopolitical calculus underpinning development assistance it also exposes its costs India stood at the center of American and Soviet aid competition throughout the Cold War as both superpowers saw developmental aid as a way of pursuing their geopolitical goals by economic means Drawing on recently declassified files from seven countries David Engerman shows how Indian leaders used Cold War competition to win battles at home eroding the Indian state in the process As China spends freely in Africa the political stakes of foreign aid are rising once again A superb field changing book A true classic Sunil Amrith

Saving America's Cities Lizabeth Cohen, 2019-10-01 An incisive treatment of the entire urban planning world in America in the last half of the 20th century Alan Ehrenhalt The New York Times In twenty first century America some cities are flourishing and others are struggling but they all must contend with deteriorating infrastructure economic inequality and unaffordable housing Cities have limited tools to address these problems and many must rely on the private market to support the public good It wasn't always this way For almost three decades after World War II even as national policies promoted suburban sprawl the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs In Saving America's Cities Lizabeth Cohen follows the career of Edward J Logue A Yale trained lawyer rival of Robert Moses and sometime critic of Jane Jacobs Logue saw renewing cities as an extension of the liberal New Deal He worked to revive a declining New Haven became the architect of the New Boston of the 1960s and later led New York State's Urban Development Corporation which

built entire new towns including Roosevelt Island in New York City Logue's era of urban renewal has a complicated legacy Neighborhoods were demolished and residents dislocated but there were also genuine successes and progressive goals Saving America's Cities is a dramatic story of heartbreak and destruction but also of human idealism and resourcefulness opening up possibilities for our own time Engrossing The Wall Street Journal Cohen sketches Logue vividly illuminating his forcefulness his passion his masculine confidence The Nation A complex portrait The Boston Globe An essential read Library Journal starred review

Economic Development at the Community Level Mark Miller, 2020-11-22 How do we create more economic opportunities in the low income communities of the developing world How can these communities build greater resilience against economic uncertainties natural disasters wars and the growing threats of climate change This book reviews the research literature of economic development in low income communities of the developing world from rural villages to neighborhoods in the largest cities on earth This book is unique in gathering organizing and synthesizing research on economic development at the community level across the developing world drawing from multiple disciplines publications methodologies regions and countries Part I provides an overview and context of the many challenges facing the developing world today as well as the often heated debates over what development is and how to make it happen Part II reviews the extensive research literature in major fields of community economic development including education and human capital overcoming the curse of natural resources entrepreneurship and micro finance tourism and sustainability The audience includes undergraduate students interested in development and sustainability graduate students and other young researchers in a wide range of disciplines who are finding their own focuses and established researchers who wish to expand their agendas An expanded bibliography accompanies the book as a downloadable supplement

Disciplinary Spaces Andrea Fischer-Tahir, Sophie Wagenhofer, 2017 This volume looks at territories such as reservations model villages and collective towns as the spatial materialization of forced assimilation and progress These disciplinary spaces were created in order to disempower and alter radically the behavior of people who were perceived as ill suited to fit into hegemonic imaginations of the nation since the 19th century Comparing examples from the Americas Australia North and East Africa Central Europe as well as West and Central Asia the book not only considers the acts and legitimizing narrations of ruling actors but highlights the agency of the subaltern who are often misrepresented as passive victims of violent assimilation strategies

How to Hide an Empire Daniel Immerwahr, 2019-02-19 Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 A 2019 NPR Staff Pick A pathbreaking history of the United States overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states And we are also familiar with the idea that the United States is an empire exercising power around the world But what about the actual territories the islands atolls and archipelagos this country has governed and inhabited In *How to Hide an Empire* Daniel Immerwahr tells the fascinating story of the United States outside the United States In crackling fast paced prose he reveals

forgotten episodes that cast American history in a new light We travel to the Guano Islands where prospectors collected one of the nineteenth century s most valuable commodities and the Philippines site of the most destructive event on U S soil In Puerto Rico Immerwahr shows how U S doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U S Congress In the years after World War II Immerwahr notes the United States moved away from colonialism Instead it put innovations in electronics transportation and culture to use devising a new sort of influence that did not require the control of colonies Rich with absorbing vignettes full of surprises and driven by an original conception of what empire and globalization mean today *How to Hide an Empire* is a major and compulsively readable work of history *Journal of the Senate of the United States of America* United States. Congress. Senate,1971 *American Lumberman* ,1915 *Congressional Quarterly Weekly Report* ,1992-07 **How to Hide an Empire** Daniel Immerwahr,2019-02-28 For a country that has always denied having dreams of empire the United States owns a lot of overseas territory America has always prided itself on being a champion of sovereignty and independence We know it has spread its money language and culture across the world but we still think of it as a contained territory framed by Canada above Mexico below and oceans either side Nothing could be further from the truth *How to Hide an Empire* tells the story of the United States outside the United States from nineteenth century conquests like Alaska Hawai i the Philippines and Puerto Rico to the catalogue of islands atolls and archipelagos dotted around the globe that are still American soil Many are thousands of miles from the mainland all are central to its history These forgotten episodes cast American history and its present in a revealing new light the birth control pill chemotherapy plastic Godzilla the Beatles the name America itself you can t understand the histories of any of these without understanding territorial empire But the populations of these territories despite being subject to America s government cannot vote for it they have often fought America s wars but they do not enjoy the rights of full citizens Full of surprises and driven by an original conception of what empire and globalization mean today *How to Hide an Empire* is a major and compulsively readable work of history *The Boston Globe Index* ,2002 *New England Journal of Education* ,1921 **Chicago Tribune Index** ,2005 *United States Economist, and Dry Goods Reporter* ,1922 **The Residential Circumstances of the Urban Poor in Developing Countries** United Nations Centre for Human Settlements,1981
