 motion pictures through these and countless other technological marvels Edison left an indelible mark on the modern world
 Although he had little formal education Edison showed a remarkable talent for practical science as a teenager and was only
 in his early twenties when he launched his inventing career In 1876 he established the world s first industrial research
 laboratory in Menlo Park New Jersey and within six years he and his assistants had developed a light and power system that
 amazed the world For more than half a century Edison remained active and involved in science and invention Upon Edison s
 death in 1931 President Herbert Hoover asked the nation to dim its lights in tribute to the inventor **Biography of**
