Three Guineas Annotated:

Three Guineas Virginia Woolf, 1938 *Three Guineas* is written as a series of letters in which Virginia Woolf ponders the efficacy of donating to various causes to prevent war. In reflecting on her situation as the daughter of an educated man in 1930s England, Woolf challenges liberal orthodoxies and marshals vast research to make discomfiting and still challenging arguments about the relationship between gender and violence and about the pieties of those who fail to see their complicity in war making. This pacifist feminist essay is a classic whose message resonates loudly in our contemporary global situation. Annotated and with an introduction by Jane Marcus. Twelve Feminist Lessons of War Cynthia Enloe, 2023-09-19. Renowned scholar activist Cynthia Enloe lays out the lessons that women activists have drawn from their immediate experiences of war. *Twelve Feminist Lessons of War* draws on firsthand experiences of war from women in places as diverse as Ukraine, Myanmar, Somalia, Vietnam, Rwanda, Algeria, Syria, and Northern Ireland to show how women's wars are not men's wars. With her engaging trademark style, Cynthia Enloe demonstrates how patriarchy and militarism have embedded themselves in our institutions and our personal lives. Enloe reveals how the social and political influences that shape war from military recruitment and economic collapse to sexual assault and reproductive rights and their denial are deeply gendered and pervade women's lives before, during, and in the aftermath of war. Her razor sharp analysis, at once accessible and provocative, highlights how women's emotional and physical labor is used to support government policies and how women's rights activists, against all odds, remain committed in the midst of armed violence. *Twelve Feminist Lessons of War* is the gritty and grounded book we need to understand what is happening to our world. *The Adventures of a Three Guinea Watch* Reed, 1881. Bodies of Modernism Maren Linett, 2016-12-05. *Bodies of Modernism* brings a new and exciting analytical lens to modernist literature that of critical disability studies. The book offers new readings of canonical and noncanonical writers from both sides of the Atlantic including Flannery O'Connor, Eudora Welty, H.G. Wells, D.H. Lawrence, Elizabeth Bowen, Henry Green, Olive Moore, Carson McCullers, Tennessee Williams, J.M. Synge, Florence Barclay, Virginia Woolf, and James Joyce. Through readings of this wide range of texts and with chapters focusing on mobility impairments, deafness, blindness, and deformity, the study reveals both modernism's skepticism about and dependence on fantasies of whole, normal bodies. A Companion to Feminist Art Hilary Robinson, Maria Elena Buszek, 2019-10-22. Original essays offering fresh ideas and global perspectives on contemporary feminist art. The term feminist art is often misused when viewed as a codification within the discipline of Art History, a codification that includes restrictive definitions of geography, chronology, style, materials, influence, and other definitions inherent to Art Historical and museological classifications. Employing a different approach, *A Companion to Feminist Art* defines art as a dynamic set of material and theoretical practices in the realm of culture and feminism, as an equally dynamic set of activist and theoretical practices in the realm of politics. Feminist art, therefore, is not a simple classification of a type of art but rather the space where feminist politics and the domain of art making intersect. The

Companion provides readers with an overview of the developments concepts trends influences and activities within the space of contemporary feminist art in different locations ways of making and ways of thinking Newly commissioned essays focus on the recent history of and current discussions within feminist art Diverse in scope and style these contributions range from essays on the questions and challenges of large sectors of artists such as configurations of feminism and gender in post Cold War Europe to more focused conversations with women artists on Afropean decoloniality Ranging from discussions of essentialism and feminist aesthetics to examinations of political activism and curatorial practice the Companion informs and questions readers introduces new concepts and fresh perspectives and illustrates just how much more there is to discover within the realm of feminist art Addresses the intersection between feminist thinking and major theories that have influenced art theory Incorporates diverse voices from around the world to offer viewpoints on global feminisms from scholars who live and work in the regions about which they write Examines how feminist art intersects with considerations of collectivity war maternal relationships desire men and relational aesthetics Explores the myriad ways in which the experience of inhabiting and perceiving aged raced and gendered bodies relates to feminist politics in the art world Discusses a range practices in feminism such as activism language education and different ways of making art The intersection of feminist art making and feminist politics are not merely components of a unified whole they sometimes diverge and divide A Companion to Feminist Art is an indispensable resource for artists critics scholars curators and anyone seeking greater strength on the subject through informed critique and debate
