Quest: V. Virom Coppola, 2004-03-16 The task before us in a nutshell my fellow humans is the clear and present danger of finding out who we really are That is the impossible feat I have given this poor creature V Virom and each of us with him The proof of the pasta is always in the tasting So says the author at the beginning of his book as he invites the reader on a detective story offering a beautifully written book with a rather remarkable synthesis of modern thinking one that builds from the ground of existence alone to a spirituality both secular and sacred That single paragraph on the cover of the book says what needs to be said it seems to me When I thought about this further and longer requested description of the book for the web site T S Eliot came to mind I am referring to the time when he was asked what his poem Prufrock was about and kindly replied Read the poem I do think he made a valid point because asking for a description of a book is the same when you think about it Shouldn't a person rather be reading the book itself At the same time I certainly can understand a person wanting to get a feel for the book before purchasing it and since you don't have the book to handle and page through to do that which I myself always do to see if there is going to be a love affair between the book and me I will give the viewer some of the Overture at the beginning of my book as an overture here as well hopefully to help accomplish the tangential absence Call it virtual foreplay if you want
