A Beginning Singer's Guide Richard Davis, 1998-09-10 A Beginning Singer's Guide is a vocal pedagogy with four practical uses First it can be used as a collateral text for studio voice lessons The teacher can conserve time by assigning relevant reading in the book instead of making lengthy expositions during the lesson Second it can be used as a primary text for undergraduate vocal pedagogy classes Many schools offer a vocal pedagogy class whose enrollment includes singers and future choral conductors A special chapter for the future choral conductor containing methods and other aids should meet the need for an all in one text for this class Third it can be used as a practical guide for new voice teachers A special chapter containing methods for new voice teachers and studio administration will be very useful to the new teacher of voice Fourth the book explores subjects not usually covered in music pedagogy books such as notes on working with a pianist improving memory common acting terms subtexting and methods for alleviating performance anxiety These important yet often disregarded areas further complement a singer's talent and skill The author does not espouse any particular method of singing instead he applies a universal scientific approach with the firm belief that singing can be enhanced through further musical knowledge The sequence of the book follows the natural sequence of learning to sing The book is rounded out with line art of the vocal mechanism musical examples tables outlining the musculature of singing practical forms information for the beginning teacher and a bibliography

The Singing Teacher's Guide to Transgender Voices Liz Jackson Hearn, Brian Kremer, 2018-05-18 The Singing Teacher's Guide to Transgender Voices is the first comprehensive resource developed for training transgender and nonbinary singers This text aids in the development of voice pedagogy tailored to the needs of transgender singers informed by cultural competence and bolstered by personal narratives of trans and nonbinary singing students The singing life of a transgender or nonbinary student can be overwhelmingly stressful Because many of the

current systems in place for singing education are so firmly anchored in gender binary systems transgender and gender nonconforming singers are often forced into groups with which they feel they don't belong Singers in transition are often afraid to reach out for help because the likelihood of finding a voice teacher who is competent in navigating the social emotional physical and physiological challenges of transition is minimal at best This text equips teachers with a sympathetic perspective on these unique struggles and with the knowledge and resources needed to guide students to a healthy joyful and safe singing life It challenges professional and academic communities to understand the needs of transgender singers and provide evidence based voice education and real world opportunities that are authentic and genuine The Singing Teacher's Guide to Transgender Voices is the first book of its kind to provide thorough organized information on the training of trans singers for educators in both the academic and independent teaching realms Creative Ways of Knowing in Engineering Diana Bairaktarova, Michele Eodice, 2016-12-29 This book offers a platform for engineering educators who are interested in implementing a creative ways of knowing approach to presenting engineering concepts The case studies in this book reveal how students learn through creative engagement that includes not only design and build activities but also creative presentations of learning such as composing songs writing poems and short stories painting and drawing as well as designing animations and comics Any engineering educator will find common ground with the authors who are all experienced engineering and liberal arts professors who have taken the step to include creative activities and outlets for students learning engineering *Mike Meyers' CompTIA Network+ Guide to Managing and Troubleshooting Networks Lab Manual, Fourth Edition (Exam N10-006)* Mike Meyers, Jonathan S.
