Waterloo Napoleons Last Gamble:

Waterloo: Napoleon's Last Gamble Andrew Roberts, 2010-05-06 Part of the Making History Series Waterloo is an exciting retelling of one of the moments that shook the world Waterloo one of the truly decisive battles of history War, Strategy and the Modern State, 1792-1914 Carl Cavanagh Hodge, 2016-11-25 This book is a comparative study of military operations conducted by modern states between the French Revolution and World War I It examines the complex relationship between political purpose and strategy on the one hand and the challenge of realizing strategic goals through military operations on the other It argues further that following the experience of the Napoleonic Wars military strength was awarded a primary status in determining the comparative modernity of all the Great Powers that military goals came progressively to distort a sober understanding of the national interest that a genuinely political and diplomatic understanding of national strategy was lost and that these developments collectively rendered the military and political catastrophe of 1914 not inevitable yet probable **Napoleon** Munro Price, 2014 It is generally assumed that once Napoleon's military defeats began in 1812 his fall became inevitable This book argues that this was not the case and focuses instead on why he failed to explore a compromise peace that could have allowed him to keep his crown **Nationalism in Modern Europe** Derek Hastings, 2018-02-08 Nationalism has been without question one of the most potent political and cultural forces within Europe since the late 18th century Placing particular emphasis on transnational and comparative links Nationalism in Modern Europe provides a clear and accessible history of the development of nationalism in Europe from the French Revolution to the present The book situates nationalist ideas and movements in Europe firmly within the context of other signifiers of identity and belonging such as religion race and gender while also providing comprehensive geographic coverage across Europe It incorporates recent historiographical trends and debates as part of the discussion and includes 13 images 9 maps and a range of primary source excerpts for classroom use It is an essential volume for all students of the history of nationalism in modern Europe and a useful text for anyone seeking to know more about modern European history in general *Encyclopedia of the Age of Imperialism, 1800-1914* Carl C. Hodge, 2007-11-30 In 1800 Europeans governed about one third of the world's land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism **A Week at Waterloo** Lady Magdalene De Lancey, 2008 One woman's true story of war love and loss Magdalene De Lancey fought to save her husband's life on the edge of the battlefield at Waterloo American born William was one of the first professional officers in the British army and the Duke of Wellington's

chief of staff Magdalener's heartrending account of her struggle to nurse her husband was written as a letter to her brother and has a striking immediacy. Any woman who has ever waited for a husband at war or nursed the man she loves will empathize with Magdalener's fears, hopes and sorrow. **Masters and Commanders** Andrew Roberts, 2009-04-24 This joint WWII biography of Roosevelt, Churchill, Marshall and Brooke is a triumph of vivid description, telling anecdotes and informed analysis. The New York Review of Books. **Masters and Commanders** explores the degree to which the course of the Second World War turned on the relationships and temperaments of four of the strongest personalities of the twentieth century: political masters Winston Churchill and Franklin D. Roosevelt and the commanders of their armed forces General Sir Alan Brooke and General George C. Marshall. Each was exceptionally tough-willed and strong-minded and each was certain that only he knew best how to win the war. Andrew Roberts, Britain's finest contemporary military historian. The Economist traces the mutual suspicion and admiration, the rebuffs and the charm, the often explosive disagreements and wary reconciliations and he helps us to appreciate the motives and imperatives of these key leaders as they worked tirelessly in the monumental struggle to destroy Nazism. *Men of Waterloo* John Patrick Sutherland, 1967 **The Economist**, 2005 **Encyclopedia of the Age of Political Revolutions and New Ideologies, 1760-1815** Gregory Fremont-Barnes, 2007 Covers the people, events and ideas that shaped the transformative political ideologies arising from the American and French Revolutions. *The Spectator*, 1918 A weekly review of politics, literature, theology and art **New Statesman**, 2005 **The Literary Review**, 2005 *Waterloo* David G. Chandler, 2002 The Battle of Waterloo is one of the most decisive battles in history. The defeat of Napoleon finally brought to an end the career of one of the greatest and most charismatic men of all time and signalled a crucial change in the balance of power in Europe. *The Bulletin*, 2006 *Rites of Peace* Adam Zamoyski, 2007 Following on from his epic and bestselling 1812 Napoleon's Fatal March on Moscow, Adam Zamoyski has written the dramatic story of the Congress of Vienna 1813-15 which was to bring about the political reshaping of Europe and whose legacy affected international relations for a century. The collapse of the French Empire and Napoleon's swift disappearance into exile left a void which the big four—Russia, Prussia, Britain and Austria—were desperate to fill. Taking advantage of the riches left behind were important personalities that included Tsar Alexander I, King Frederick William III of Prussia, Count Metternich, the Machiavellian Prince de Talleyrand (likened by Napoleon to shit in a silk stocking) and the British Lord Castlereagh. Following in close succession were the sabre-rattling generals, heartened by their recent victories and obsessed with gaining as many fortresses and strong river boundaries for their countries as possible. The final act was to dash many of the liberal hopes and dreams for a more equitable order throughout Europe with fatal consequences for the future. The Congress itself gave birth to a new kind of power politics based around the five Continental Powers and at the expense of the weaker nations. The Congress was the greatest party the world has ever seen: a huge gathering of two emperors, eleven sovereign princes, ninety plenipotentiaries plus court loads of servants, cooks, secretaries etc. Zamoyski has written a detailed

study of these intrigues and negotiations producing a marvelously heady brew that results in a fascinating and gripping read
