Writing Smart Goals For Nurses:

How to Thrive as a Newly Registered Nurse, second edition Carol Forde-Johnston, 2023-09-11 *How to Thrive as a Newly Registered Nurse* provides a structured programme of support for nursing students and newly registered nurses during their first year of registration. Fully updated and packed with practical examples, tips and advice, and featuring vignettes from recently registered nurses, this book will help you to Choose your first nursing post and secure the job you really want. Structure your learning and development in the early stages of your career. Work in a team, prioritise your care giving and delegate to others. Understand safe staffing, patient acuity and dependency tools, care planning and risk assessment tools. Learn how to escalate concerns and report incidents. Understand mental capacity assessment to guide your decisions in practice. Understand how to access research opportunities and funding for education. Plan your future professional development and career progression. Here's what some reviewers said: This book reads like you've got the loveliest mentor you've ever had, holding your hand through the transition from student nurse to registered nurse. Just reading it made me feel calmer and better prepared about my imminent start. In my opinion, Carol Forde-Johnston's book is the best transition book I've read. This book is well written and very helpful. I recommend it to all our preceptees and they are all grateful to the author for such a wonderful book. One of my preceptees called it a manual for all new nurses. I noticed that it answered many of the questions I was always embarrassed to ask as I thought I should have already known those things. Drawing on over 34 years experience supporting students and newly registered nurses, Carol Forde-Johnston has written an accessible and practical book that aims to respond to the questions and concerns that her students and NRNs frequently raise and to help you thrive as a newly registered nurse.

Fundamentals of Assessment and Care Planning for Nurses Ian Peate, 2019-10-07 All nursing students are required to meet the seven standards produced by the Nursing Midwifery Council (NMC) before being entered onto the professional register. *Fundamentals of Assessment and Care Planning for Nurses* addresses two of these important standards, helping readers become proficient in assessing patient needs and planning, providing and evaluating care. This timely publication adopts a practical approach with NMC proficiencies at its core, providing guidance and insight into the application of key skills and demonstrating competency in real-life settings. Centres around a fictitious nuclear family to provide a practical basis to the various chapters and assessment. Offers mnemonics to enable comprehensive history taking and systematic physical assessment. Helps readers address socio-cultural considerations they may face in practice. Includes links to literature that provides further support and additional information. *Fundamentals of Assessment and Care Planning for Nurses* is an important resource for pre-registration nursing students and Nursing Associates who are required to demonstrate proficiency in the new NMC standards and other registered practitioners seeking to update their knowledge.
