We Chose to Speak of War and Strife John Simpson, 2016-10-06 From distinguished foreign correspondent John Simpson, a fascinating history of what it is to risk life and limb to bring home news of the troubled world. Great stories, sometimes harrowing, sometimes hilarious. *Telegraph*. In corners of the globe where fault lines seethe into bloodshed and civil war, foreign correspondents have for hundreds of years been engaged in uncovering the latest news and, despite obstacles, bureaucratic, political, violent, reporting it by whatever means available. It's a working life that is difficult, exciting, and undeniably glamorous. *We Chose to Speak of War and Strife* brings us pivotal moments in our history from the Crimean War to Vietnam, the siege of Sarajevo to the fall of Baghdad through the eyes of those who risked life and limb to witness them first hand and the astonishing tales of what it took to report them. These stories celebrate an endangered tradition. Where once despatches were trusted to the hands of a willing sea captain, telegraph operator, or stranger in an airport queue prepared to spirit a can of undeveloped film back to London, today the digital realm has transformed the relaying of the news, even if the work of gathering it in the field has changed little. Weaving the tales of the greats of yesterday and today such as Martha Gellhorn, Ernest Hemingway, Don McCullin, and Marie Colvin with extraordinary accounts from his own lifetime on the frontlines, this is a deeply personal book from a master of the profession, the most distinguished foreign correspondent of our time.

International Journalism Kevin Williams, 2011-08-10 Kevin Williams has authored an account of foreign correspondence and international journalism that is the most comprehensively sourced, inclusive, contextualized, timely, and critical in its field. At last, we have an account that acknowledges that the largest employers of foreign correspondents for nearly two hundred years have been and continue to be the news agencies that the occupation is rooted in a history of imperialism, post-colonialism, and commercialization, whose vestiges today are all too apparent. That the impacts of so-called new media on the amount, range, and quality of international news, while significant, are less dramatic and less positive than commonly supposed. Oliver Boyd Barrett, Bowling Green State University, Ohio. What is

the future of the foreign correspondent is there one Tracing the historical development of international reporting Kevin Williams examines the organizational structures occupational culture and information environment in which it is practiced to explore the argument that foreign correspondence is becoming extinct in the globalized world Mapping the institutional political economic cultural and historical context within which news is gathered across borders this book reveals how foreign correspondents are adapting to new global and commercial realities in how they gather adapt and disseminate news Lucid and engaging the book expertly probes three global models of reporting Anglo American European and the developing world to lay bare the forces of technology commercial constraint and globalization that are changing how journalism is practiced and understood Essential reading for students of journalism this is a timely and thought provoking book for anyone who wishes to fully grasp the core issues of journalism and reporting in a global context *Extraordinary Jobs in Media* Alecia T.
