**Big Farms Make Big Flu** Rob Wallace, 2016-06-30 The first collection to explore infectious disease agriculture economics and the nature of science together Thanks to breakthroughs in production and food science agribusiness has been able to devise new ways to grow more food and get it more places more quickly There is no shortage of news items on hundreds of thousands of hybrid poultry each animal genetically identical to the next packed together in megabarns grown out in a matter of months then slaughtered processed and shipped to the other side of the globe Less well known are the deadly pathogens mutating in and emerging out of these specialized agro environments In fact many of the most dangerous new diseases in humans can be traced back to such food systems among them Campylobacter Nipah virus Q fever hepatitis E and a variety of novel influenza variants Agribusiness has known for decades that packing thousands of birds or livestock together results in a monoculture that selects for such disease But market economics doesn t punish the companies for growing Big Flu it punishes animals the environment consumers and contract farmers Alongside growing profits diseases are permitted to emerge evolve and spread with little check That is writes evolutionary biologist Rob Wallace it pays to produce a pathogen that could kill a billion people In Big Farms Make Big Flu a collection of dispatches by turns harrowing and thought provoking Wallace tracks the ways influenza and other pathogens emerge from an agriculture controlled by multinational corporations Wallace details with a precise and radical wit the latest in the science of agricultural epidemiology while at the same time juxtaposing ghastly phenomena such as attempts at producing featherless chickens microbial time travel and neoliberal Ebola Wallace also offers sensible alternatives to lethal agribusiness Some such as farming cooperatives integrated pathogen management and mixed crop livestock systems are already in practice off the agribusiness grid While many books cover facets of food or outbreaks Wallace s collection appears the first to explore infectious disease agriculture economics and the nature of science together Big Farms Make Big Flu integrates the political economies of disease and science to derive a new understanding of the evolution of infections Highly capitalized agriculture may be farming pathogens as much as chickens or corn

**The**

**Academy of Fisticuffs** Sophus A. Reinert, 2018-12-28 The terms capitalism and socialism continue to haunt our political and economic imaginations but we rarely consider their interconnected early history Even the eighteenth century had its socialists but unlike those of the nineteenth they paradoxically sought to make the world safe for capitalists The word socialists was first used in Northern Italy as a term of contempt for the political economists and legal reformers Pietro Verri and Cesare Beccaria author of the epochal *On Crimes and Punishments* Yet the views and concerns of these first socialists developed inside a pugnacious intellectual coterie dubbed the Academy of Fisticuffs differ dramatically from those of the socialists that followed Sophus Reinert turns to Milan in the late 1700s to recover the Academy's ideas and the policies they informed At the core of their preoccupations lay the often lethal tension among states markets and human welfare in an era when the three were becoming increasingly intertwined What distinguished these thinkers was their articulation of a secular basis for social organization rooted in commerce and their insistence that political economy trumped theology as the underpinning for peace and prosperity within and among nations Reinert argues that the Italian Enlightenment no less than the Scottish was central to the emergence of political economy and the project of creating market societies By reconstructing ideas in their historical contexts he addresses motivations and contingencies at the very foundations of modernity *New Orleans Coffee*

Suzanne Stone, 2015-09-07 New Orleans history is steeped in coffee Caf du Monde and Morning Call started serving caf au lait more than a century ago Outside the Cathedral of St Louis in Jackson Square early entrepreneurs like Old Rose provided eager churchgoers with the brew and it was sold in the French Market beginning in the late 1700s People gathered for business socializing politics and auctions at five hundred coffee exchanges and shops in the 1800s Since 1978 myriad specialty coffee shops have opened to meet increasing demand for great coffee Author Suzanne Stone presents the full story of this celebrated tradition including how chicory became part of the city's special flavor *The Handbook of Food Research*

Anne Murcott, Warren Belasco, Peter Jackson, 2013-08-15 The last 20 years have seen a burgeoning of social scientific and historical research on food The field has drawn in experts to investigate topics such as the way globalisation affects the food supply what cookery books can and cannot tell us changing understandings of famine the social meanings of meals and many more Now sufficiently extensive to require a critical overview this is the first handbook of specially commissioned essays to provide a tour d horizon of this broad range of topics and disciplines The editors have enlisted eminent researchers across the social sciences to illustrate the debates concepts and analytic approaches of this widely diverse and dynamic field This volume will be essential reading a ready to hand reference book surveying the state of the art for anyone involved in and actively concerned about research on the social political economic psychological geographic and historical aspects of food It will cater for all who need to be informed of research that has been done and that is being done

**Caffeinated** Murray Carpenter, 2015-01-27 You'll never think the same way about your morning cup of coffee Mark McClusky editor in chief of Wired.com and author of *Faster Higher Stronger* Journalist Murray Carpenter has been under the

influence of a drug for nearly three decades And he s in good company because chances are you re hooked too Humans have used caffeine for thousands of years A bitter white powder in its most essential form a tablespoon of it would kill even the most habituated user This addictive largely unregulated substance is everywhere in places you d expect like coffee and chocolate and places you wouldn t like chewing gum and fruit juice and Carpenter reveals its impact on soldiers athletes and even children It can make you stronger faster and more alert but it s not perfect and its role in health concerns like obesity and anxiety will surprise you Making stops at the coffee farms of central Guatemala a synthetic caffeine factory in China and an energy shot bottler in New Jersey among numerous other locales around the globe Caffeinated exposes the high stakes but murky world of caffeine drawing on cutting edge science and larger than life characters to offer an unprecedented understanding of America s favorite drug
