Schuldenfrei,2024-01-23 An essential examination of how emigration and resettlement defined modernism In the fraught years leading up to World War II many modern artists and architects emigrated from continental Europe to the United States and Britain The experience of exile infused their modernist ideas with new urgency and forced them to use certain materials in place of others modify existing works and reconsider their approach to design itself In Objects in Exile Robin Schuldenfrei

reveals how the process of migration was crucial to the development of modernism charting how modern art and architecture was shaped by the need to constantly face and transcend the materiality of things Taking readers from the prewar era to the 1960s Schuldenfrei explores the objects these migrants brought with them what they left behind and the new works they completed in exile She argues that modernism could only coalesce with the abandonment of national borders in a process of emigration and resettlement and brings to life the vibrant postwar period when avant garde ideas came together and emerged as mainstream modernism Examining works by Walter Gropius László Moholy Nagy Lucia Moholy Herbert Bayer Anni and Josef Albers and others Schuldenfrei demonstrates the social impact of art objects produced in exile Shedding critical light on how the pressures of dislocation irrevocably altered the course of modernism Objects in Exile shows how artists and designers forced into exile by circumstances beyond their control changed in unexpected ways to meet the needs and contexts of an uncertain world
