The Anzaldúan Theory Handbook AnaLouise Keating, 2022-09-06 In *The Anzaldúan Theory Handbook* AnaLouise Keating provides a comprehensive investigation of the foundational theories, methods, and philosophies of Gloria E. Anzaldúa. Through archival research and close readings of Anzaldúa's unpublished and published writings, Keating offers a biographical intellectual sketch of Anzaldúa, investigates her writing process and theory-making methods, and excavates her archival manuscripts. Keating focuses on the breadth of Anzaldúa's theoretical oeuvre, including Anzaldúa's lesser-known concepts of autohistoria y autohistoria teórica, and other geographies of selves and *El Mundo Zurdo*. By investigating those dimensions of Anzaldúa's theories, writings, and methods that have received less critical attention and by exploring the interconnections between these overlooked concepts and her better-known theories, Keating opens additional areas of investigation into Anzaldúa's work and models new ways to do Anzaldúan theory. This book also includes extensive definitions, genealogies, and explorations of eighteen key Anzaldúan theories, as well as an annotated bibliography of hundreds of Anzaldúa's unpublished manuscripts.

Identity Construction as a Spatiotemporal Phenomenon within Doctoral Students' Intellectual and Academic Identities Rudo F. Hwami, 2024-05-22 Investigating the interplay between space, time, and identity construction, this book brings to focus how spatiality and temporality have been largely overlooked in the study and theorisation of identity construction. Offering Gloria Anzaldúa's concept of *conocimiento* as a theoretical tool for analysing identity construction, the book investigates how doctoral students hold varying assumptions about their intellectual identity where the doctoral process enables them to deconstruct and reconstruct these identities. Chapters examine the implications for scholars who find themselves in the in-between space of transitional identities, advocating the need for innovative identity theorisation to strike a balance in the shifting dynamics between different presentations of identity and belief systems. Bringing together Lefebvre's theorisation of the relationship between space and the body in *rhythmanalysis* and Anzaldúa's theorisation of the relationship between the body and identity construction, the book offers a transdisciplinary reading of space, body, and identity. Providing a space to continue and progress the foregrounding of narratives from marginalised voices and groups in higher education, the book will be of interest to scholars, researchers, and academics in the fields of sociology of education, multicultural education, higher education, and philosophy of education.

Research Sharlene Nagy Hesse-Biber, 2007 The topic feminist research has too often been neglected in standard research methods books The Handbook of Feminist Research represents the establishment of a new tradition or paradigm in viewing how the research process is implemented Feminist researchers bring unique epistemological and methodological perspectives to the research process Feminists approach to methodology allows for new types of questions about women's lives and those of other marginalized groups to be addressed within their respective fields of research This Handbook stresses the interconnections between epistemology methodology and methods They are not de-linked from each other but work together in dynamic ways to produce new knowledge and this openness itself is also characteristic of how feminist researchers approach their work Feminists engage synergistically with all three aspects of the research process epistemology methodology and method Through a synergistic connection between these elements of research epistemology methodology and method we find that feminist research often shapes new research endeavors that are greater than the sum of their parts In other words while traditional research employs these components of research the synergistic engagement of these components in feminist research questions the status quo aiming to raise our consciousness about how we do research Looking at the selections provided in this Handbook we are able to look at feminist research its implementation of synergistic use of epistemology methodology and method and the resulting qualities of feminist research in practice *Hacia nuevas interpretaciones de la latinidad en el siglo XXI* José Antonio Gurpegui Palacios, 2019 **Discourse**, 2003 **Deleuze and Queer Theory** Chrysanthi Nigianni, Merl Storr, 2009 The field of queer theory has long been dominated by the work of Judith Butler and the focus on performativity This collection of work proposes a major paradigm shift in debates on sexuality **Compelled to Write** David L Wallace, 2011-03 To examine the practice of writing from varied margins of society this book offers careful readings of four exemplar American writers each of whom felt compelled within their own time and place to write in response to systemic injustices in American society **ESQ.**, 2007 **American Solitudes** Donatella Izzo, Giorgio Mariani, Paola Zaccaria, 2007
