Haule, 2010-03 *Divine Madness* Archetypes of Romantic Love examines the transforming experience of romantic love in literature myth religion and everyday life A series of psychological meditations on the nature of romantic love and human relationship *Divine Madness* takes the perspective that human love is a species of divine love and that our experience of romantic love both conceals and reveals the ultimate Lover and Beloved John Haule draws on depth psychology the mystical traditions of the world and literature from Virgil to Milan Kundera to lead the reader inside the mind and heart of the lover Each chapter explores a characteristic aspect of relationship such as seduction and love play the rapture of union the agony of separation madness woundedness and transcendence Focusing on the soulful and spiritual meaning of these experiences *Divine Madness* sheds light on our elations obsessions and broken hearts but it also reconnects us with the wisdom of time immemorial As a practicing Jungian analyst and former professor of religious studies John Haule masterfully guides his readers through the labyrinth of everyday experience and the often hidden layers of archetypal realities sketching a philosophy of romantic love through the stories of the world's literature and mythology *The Divining Heart* Patricia C. Wright, Richard D. Wright, 1994-07-01 Building on the principles and practices presented in *The Divining Mind* Richard Wright's first book on dowsing coauthored by T Edward Ross II authors Richard and Pat Wright define dowsing as the process of uncovering information through the medium of the self The Wrights believe as do many dowsers that the ability to dowse is innate but they also feel that its proper development is contingent upon the parallel unfoldment of the spiritual qualities in our nature Through this process the dowser becomes increasingly cognizant of the interconnectedness of all aspects of life and begins to play his or her part as an agent of healing and positive change Includes detailed information on Responsibility in dowsing Practical dowsing Earth energies Planetary stewardship Healing and prayer The supersensory worlds An indispensable guide for the advanced dowser as well as a beginner's sourcebook **Translating Rumi into the West** Amir Sedaghat, 2023-02-28 Focusing on Rumi the best selling Persian mystical poet of the 13th century this book investigates the reception of his work and thought in North America and Europe and the phenomenon of Rumimania to elucidate the complexities of intercultural communication between the West and the Iranian and Islamic worlds Presenting tens of examples from the original and translated texts the book is a critical analysis of various dimensions of this reception outlining the difficulties of translating the text but also exploring how translators of various times and languages have performed and explaining why the quality of reception varies Topics analysed include the linguistic and pragmatic issues of translation comparative stylistics and poetics and non textual factors like the translator's beliefs and the political and ideological aspects of translation Using a broad theoretical framework the author highlights the difficulties of intercultural

communication from linguistic semiotic stylistic poetic ethical and sociocultural perspectives Ultimately the author shares his reflections on the semiotic specificities of Rumi s mystical discourse and the ethics of translation generally The book will be valuable to scholars and students of Islamic philosophy Iranian studies and translation studies but will appeal to anyone interested in the cultural dichotomies of the West and Islam **Sufism** Deepshikha Shahi,2020-06-22 In an effort to attain a global character the contemporary academic discipline of International Relations IR increasingly seeks to surpass its Eurocentric limits thereby opening up pathways to incorporate non Eurocentric worldviews Lately many of the non Eurocentric worldviews have emerged which either engender a derivative discourse of the same Eurocentric IR theories or construct an exceptionalist discourse which is particularly applicable to the narrow experiential realities of a native time space zone as such they fall short of the ambition to produce a genuinely non derivative and non exceptionalist Global IR theory Against this backdrop Sufism A Theoretical Intervention in Global International Relations performs a multidisciplinary research to explore how Sufism as an established non Western philosophy with a remarkable temporal spatial spread across the globe facilitates a creative intervention in the theoretical understanding of Global IR **A Heart of Wisdom** Maurice Friedman,2012-02-01 Drawing on almost half a century of immersion in the world s great religions coupled with an ever deepening understanding of the philosophy and phenomenology of religion the author takes a dialogical approach through which religious reality is not seen as external creed and form or as subjective inspiration but as the meeting in openness presentness immediacy and mutuality with ultimate reality Religion has to do with the wholeness of human life The absolute is found not just in the universal but in the particular and the unique When it promotes a dualism in which the spirit has no binding claim upon life and life falls apart into unhallowed fragments religion becomes the great enemy of humankind **The Writers Directory** ,2013 **Rumi - Past and Present, East and West** Franklin D. Lewis,2014-10-01 The definitive study of the world s bestselling poet Drawing on a vast array of sources from writings of the poet himself to the latest scholarly literature this new anniversary edition of the award winning work examines the background the legacy and the continuing significance of Jal l al Din Rumi today s bestselling poet in the United States With new translations of over fifty of Rumi s poems and including never before seen prose this landmark study celebrates the astounding appeal of Rumi still as strong as ever 800 years after his birth **The Sibling Society** Robert Bly,1997-05-27 Where have all the grownups gone In answering that question with the same freewheeling erudition and intuitive brilliance that made Iron John a national bestseller poet storyteller and translator Robert Bly tells us that we live in a sibling society in which adults have regressed into adolescence and adolescents refuse to grow up **A History of God** Karen Armstrong,2011-08-10 Why does God exist How have the three dominant monotheistic religions Judaism Christianity and Islam shaped and altered the conception of God How have these religions influenced each other In this stunningly intelligent book Karen Armstrong one of Britain s foremost commentators on religious affairs traces the history of how men and women have perceived and experienced God

from the time of Abraham to the present The epic story begins with the Jews gradual transformation of pagan idol worship in Babylon into true monotheism a concept previously unknown in the world Christianity and Islam both rose on the foundation of this revolutionary idea but these religions refashioned the One God to suit the social and political needs of their followers From classical philosophy and medieval mysticism to the Reformation Karen Armstrong performs the near miracle of distilling the intellectual history of monotheism into one superbly readable volume destined to take its place as a classic Praise for History of God An admirable and impressive work of synthesis that will give insight and satisfaction to thousands of lay readers The Washington Post Book World A brilliantly lucid spendidly readable book Karen Armstrong has a dazzling ability she can take a long and complex subject and reduce it to the fundamentals without oversimplifying The Sunday Times London Absorbing A lode of learning Time The most fascinating and learned study of the biggest wild goose chase in history the quest for God Karen Armstrong is a genius A N Wilson author of Jesus A Life **The Radiance of Being** Allan Combs,1996 In this ground breaking work Allan Combs presents a wide ranging survey of the nature and origins of consciousness research viewing consciousness as a dynamic and self organizing process with evolutionary potential Combs reviews the work of evolutionary theorists such as Pierre Teilhard de Chardin Ken Wilber Jean Gebser and Sri Aurobindo What emerges is a fascinating study of consciousness that discloses itself as a rich and ongoing act of self creation poised at the edge of chaos between past and future **Small Press Record of Books in Print** Len Fulton,1994 **Encyclopaedic Survey of Islamic Culture: Sufism, evolution and practice** Mohamed Taher,1997
