Sketchbooks Steven Heller, Talarico Lita, 2011-12-28 Typography: the design of letters is at the heart of visual communication and graphic design. No design is successful without successful typography. An artful craft since the days of moveable type, today's digital designers have an unimaginable array of possibilities when it comes to choosing typefaces. Whether on paper, screen or in e-ink, legibility and expression are paramount. Where do the best contemporary fonts come from and who designed them? Fortunately for us, typography for most designers is an obsession, one of the purest forms of design, one that can always be improved and refined. Selected by the world's most knowledgeable and well-connected graphic design commentator Steven Heller, this survey gets into the minds of designers who create typefaces, word images and logos through their private sketchbooks. This collection of typographic explorations arranged by designer intimately reveals how over 90 of the world's leading designers and typographers continually strive to find new and exciting ways of communicating through letters and words. Established designers and up-and-coming talents include Ivan Chermayeff, Carlos Segura, Milton Glaser, Maira Kalman, Bob Aul, Matthew Carter, US, Javier Mariscal and Patrick Thomas, Spain, Erik Spiekermann, Viktor Nibel, Germany, Peter Bilak and Enkeling, the Netherlands, Jean Baptiste Leve, France. The result of these wide-ranging typographic musings provides fascinating insights into the expressive quality of letters and words. Aimed at all those who use type, whether by hand or on screen, this pleasing compendium stresses the importance of good typography at a time when reading habits are changing and celebrates a craft that has endured for centuries. **Freehand** Steven Heller, Lita Talarico, 2018-02 Typography can embrace functions beyond the purely communicative.
