Wanting Enlightenment Is a Big Mistake Zen Master Seung Sahn, 2006-08-08 A major figure in the transmission of Zen to the West Zen Master Seung Sahn was known for his powerful teaching style which was direct surprising and often humorous He taught that Zen is not about achieving a goal but about acting spontaneously from don't know mind It is from this before thinking nature he taught that true compassion and the desire to serve others naturally arises This collection of teaching stories talks and spontaneous dialogues with students offers readers a fresh and immediate encounter with one of the great Zen masters of the twentieth century **Principles of Zen Training for Educational Settings** Hugh

Schuckman, 2024-10-31 This book provides insights into new developments and persistent traditions in Zen teacher training and education through the use of historical archival research and original interviews with living Zen Masters It argues that some contemporary Euro American social values of gender equality non discrimination rationality ecumenicism and democracy permeate not only the organizational aspects of the Kwan Um School of Zen case study but soteriological processes and goals of the training more widely Each chapter showcases the ways important facets of Zen education from meditation to curriculum development to school management have absorbed Euro American cultural and social ideals in both community and educational practices Giving dedicated scholarly attention and conceptualising new adaptations in transnational Zen communities it constitutes an important and timely addition to the literature and will appeal to researchers and scholars of religion and education Asian pedagogies contemporary Buddhism transnational Zen and Zen education

The Mirror of Zen Boep Joeng, 2006-12-12 The sacred radiance of our original nature never darkens It has shined forth since beginningless time Do you wish to enter the gate that leads to this Simply do not give rise to conceptual thinking Zen Master So Sahn 1520 1604 is a towering figure in the history of Korean Zen In this treasure text he presents in simple yet beautiful language the core principles and teachings of Zen Each section opens with a quotation drawn from classical scriptures teachings and anecdotes followed by the author's commentary and verse Originally written in Chinese the text was translated into Korean in the mid twentieth century by the celebrated Korean monk Boep Joeng An American Zen monk Hyon Gak has translated it into English **The Power of Names** Mavis Himes, 2016-05-12 Our proper name is as much a part of us as our own skin It travels with us like a passport testifying to our unique presence on this earth The articulation of our name rolls off our tongue with ease and familiarity yet we rarely turn and examine the part our name plays in what makes us who we are Our first name reflects the hopes and dreams of our parents and family our culture and our own sense of self while our surname carries our ancestral history a branding of both affiliation and transmission In *The Power of Names* Mavis Himes explores both the profound ambivalence that many of us feel toward our names and the conscious and unconscious impact our names have on our lives sometimes for good and sometimes for ill She explores such questions as What do our names mean How do they influence our destiny What does it mean to lose or change our name and what does this reveal or

conceal about who we are Himes engages readers through a skillful interweaving of reflections on her own Jewish surname shortened by immigrant ancestors to accommodate a new life in a new world the historical and cultural impact of a group on naming practices the various ways different cultures celebrate the naming of infants the power of names in myth and legend and the impact of names on friends and patients from her practice Readers are invited to consider their own names the names they give others and the names of those around them as a starting point for understanding the stories of our lives
