War Made Easy How Presidents And Pundits Keep Spinning Us To Death:

War Made Easy Norman Solomon, 2010-12-09 War Made Easy cuts through the dense web of spin to probe and scrutinize the key perception management techniques that have played huge roles in the promotion of American wars in recent decades This guide to disinformation analyzes American military adventures past and present to reveal striking similarities in the efforts of various administrations to justify and retain public support for war War Made Easy is essential reading It documents a long series of deliberate misdeeds at the highest levels of power and lays out important guidelines to help readers distinguish a propaganda campaign from actual news reporting With War Made Easy every reader can become a savvy media critic and perhaps help the nation avoid costly and unnecessary wars **Exceptional State** Ashley Dawson, Malini Johar Schueller, 2007-06-29 Explores the role culture plays in legitimating unsettling and contesting America's aggressively interventionist foreign policy since 9 11 **Militarizing Culture** Roberto J González, 2016-06-16 Militarizing Culture is a rousing critique of the American warfare state by a leading cultural commentator Roberto J González reveals troubling trends in the post 9 11 era as the military industrial complex infiltrates new arenas of cultural life from economic and educational arenas to family relationships One of the nation's foremost critics of the Human Terrain System program González makes passionate arguments against the engagement of social scientists and the use of anthropological theory and methods in military operations Despite the pervasive presence of militarism and violence in our society González insists that warfare is not an inevitable part of human nature and charts a path toward the decommissioning of culture *Lessons from Iraq* Miriam Pemberton, William D. Hartung, 2015-12-03 If what is shaping up to be the worst foreign policy disaster in U S history has an upside it is that the current war in Iraq should definitively permanently settle a handful of critical questions about American conduct in the world This book provides a list of those questions and even ventures some answers in the form of key lessons from Iraq The idea of assembling lessons as tools for avoiding the next war is less of a stretch than it seems given the group of writers represented here They include a Nobel Prize winning economist the former chief UN weapons inspector and an Iraqi American whose weekly conversations with his relatives have given him a grim education on what living through a war to spread democracy is like on the ground Also here is a Pulitzer Prize and National Book Award winner who traces the recurring American bad habit of starting wars as tryouts for big ideas All societies need a ready reference handbook that draws some lines around its conduct of war The Bush administration has produced a radical overhaul of the U S manual Given the Iraq experience it is urgent that we reject this version and think again This book is a manageably sized accessibly written affordable compilation of key points that most urgently need to be rethought *American Documentary Film* Jeffrey Geiger, 2011-06-29 Richard Wall Memorial Award 2012 Finalist What key concerns are reflected in documentaries produced in and about the United States How have documentaries engaged with competing visions of US history culture politics and national identity This book examines how documentary films have contributed to the

American public sphere creating a kind of public space serving as sites for community building public expression and social innovation Geiger focuses on how documentaries have been significant in forming ideas of the nation both as an imagined space and a real place Moving from the dawn of cinema to the present day this is the first full length study to focus on the extensive range and history of American non fiction filmmaking Combining comprehensive overviews with in depth case studies Geiger maps American documentary s intricate histories examining the impact of pre and early cinema travelogues the avant garde 1930s social documentary propaganda direct cinema postmodernism and new documentary Offering detailed close analyses and fresh insights this book provides students and scholars with a stimulating guide to American documentary reminding us of its important place in cinema history **Censored 2014** Mickey Huff,Andy Lee Roth,Project

Arno, 2007-01-09 Publisher description PTSD Jerry Lembcke, 2013-12-11 Stories of soldiers suffering from Post Traumatic Stress Disorder dominate news coverage of the return from wars in the Middle East On the surface the stories call our attention to psychic trauma and the need for mental health services for veterans scratch that surface and we see that PTSD has morphed from a diagnostic category into a cultural trope with broad societal implications In PTSD Diagnosis and Identity in Post empire America Jerry Lembcke exposes those implications Lembcke reprises PTSD's formulation following the war in Vietnam examining how its medical discourse provided a psychological alternative to the political interpretations of veterans opposition to the war psychiatrists said veteran dissent was cathartic a form of acting out Lembcke drills deeply into the modern history of war trauma treatment picking up the threads left by nineteenth century work on men and hysteria and following them into the treatment of shell shock in World War I With great originality Lembcke also shows how art and the media led the science of war trauma and then how the followers of Sigmund Freud showed that shell shock symptoms were as likely to be expressions of fears and conflicts internal to the patients as the effects of exploding shells The line drawn by the Freudian critique of the medical neurological model would resurface in debates leading to PTSD's inclusion in the DSM in 1980 and on going deliberations over the definition and meaning of Traumatic Brain Injury In core chapters Lembcke shows the influence of film theater television and news coverage on public and professional thinking about war trauma The inglorious nature of recent wars from Vietnam through Iraq and Afghanistan leaves Americans searching for meaning in those conflicts and finding it in loss and sacrifice Lembcke warns that the image of damaged war veterans is working metaphorically in these dangerous times to construct a national self image of defeat and damage that needs to be avenged It is a dangerous end of empire narrative that needs to be engaged he says lest its dangers reach fruition in more war The insights found in this book make it an invaluable resource for scholars of sociology medical sociology psychology military studies gender studies and history of psychiatry and a riveting read for anyone interested in the subjects it treats

mainstream media The film festivals discussed in this book also help build a sense of community locally as well as promote solidarity with people involved in struggles for social justice and ecological integrity around the world Documentaries by independent filmmakers reveal stories ignored by mass media stories at times tragic but more often than not inspiring It can be said that documentary film festivals create a public space for citizens to listen together and to become informed on current issues in greater depth than newscast bulletins offer This book shows how documentary films create a liminal space with transformative potential a space that challenges assumptions supports the development of empathy and often stimulates engagement and action In viewing documentaries together and engaging in critical reflection and dialogue citizens can imagine alternative possibilities and consider solutions Documentary Film Festivals Transformative Learning Community Building Solidarity offers the voices of attendees sponsors and organizers who shared their thoughts and experiences of documentary film festivals and the impact on their views and engagement Activists and organizers of various social movements who are seeking ways to inform and inspire will see evidence in this text that documentary film festivals are a means of drawing diverse audiences engaging differences and respectfully promoting hope and preferred visions of the future Documentary Film Festivals Transformative Learning Community Building Solidarity includes concrete examples of creative and courageous struggles that have led to victories often ignored by the media This book is bound to inspire

Cinema John Markert, 2011-08-05 In contemporary society cinema has become a primary way in which people gain knowledge about events taking place in the world Films often go beyond news reports by showing in depth behind the scenes footage whether in a documentary or recreated in fictional features More than fleeting scenes of events shown on the nightly news a film can influence people's feelings about war and what our political leaders should do about it This has certainly been the case since the attack on 9 11 and the subsequent incursions into Iraq and Afghanistan In Post 9 11 Cinema Through a Lens Darkly John Markert takes a close look at the films depicting these events Covering cinematic portrayals of 9 11 and the attacks that followed this book examines both dramas and documentaries that depict what some have termed Bush's war as well as rebuttal films films about terrorist activities and films seen from the vantage point of journalists and military personnel Post 9 11 Cinema not only shows how motion pictures reflect societal values but also how such works can influence social attitudes and thus promote change In addition Markert appraises the film industry and critiques how images are manipulated to sway the viewer to appreciate the side being advocated Examining such dramas as The Messenger Stop Loss The Lucky Ones In the Valley of Elah and The Hurt Locker as well as documentaries including Fahrenheit 9 11 Soldiers of Conscience and Taxi to the Dark Side Post 9 11 Cinema is a valuable read for professors of media and mass communication popular culture and film studies as well as cultural sociologists
