War and Peace and War Peter Turchin, 2007-02-27

From the author of *End Times*

In *War and Peace and War* Peter Turchin uses his expertise in evolutionary biology to offer a bold new theory about the course of world history

Turchin argues that the key to the formation of an empire is a society's capacity for collective action

He demonstrates that high levels of cooperation are found where people have to band together to fight off a common enemy and that this kind of cooperation led to the formation of the Roman and Russian empires and the United States

But as empires grow the rich get richer and the poor get poorer conflict replaces cooperation and dissolution inevitably follows

Eloquently argued and rich with historical examples

War and Peace and War offers a bold new theory about the course of world history with implications for nations today
