Karen E Peterson, 2006-05-11 In this revolutionary book psychologist and novelist Karen E Peterson presents an easy effective way to beat writer's block in only ten days Based on new brain research and sound psychological principles this innovative program shows writers how to conquer writer's block using such methods as exercises to conquer the write or flight response techniques to create that elusive writing mood parallel monologue and interior dialogue to jump start the writing process checklists to see which side of the brain is blocking you a template for establishing writing as a part of your daily life motivation to go so that writers can write anywhere any time and more With case examples and a healthy dollop of humor *Write* will help both seasoned and neophyte writers to enjoy the process of sending their creativity and productivity soaring to new heights **There's No Such Thing As Writer's Block** Gene Grossman, 2017-06-05 I've written almost 50 books of which 20 are a series of mysteries and I've never suffered from what they call writer's block for one main reason I don't sit down at my computer intending to write until I have something to say and the only thing that slows me down isn't not having something to say it's trying to figure out the best way to say it I don't claim to be able to sit down and instantly think of things to say having not thought about it previously unless I'm writing a non-fiction book on a subject I know like the back of my hand and then I'm like an old performer that opens up the refrigerator door and when the light goes on I do a half hour Not everyone has something to say but still wants to write a book because there's a story in them fighting to get out so the purpose of this book about there being no such thing as writer's block is what I have done to eliminate it from my writing process and believe may help others to do the same I don't plan to sit down and force myself to write every day for a set amount of hours just to get a certain amount of words onto the screen I have a mental process I practice that gives me things to say so that I can't wait to get to my desk to start them flying into the computer at a rate of over 75 words a minute of which more than half are typos

but at least they're on the paper and for corrections well that's why God created proof readers I also go into a lot of things not to do and discuss the pros and cons of also doing a book in the audio format for distributors like Audible.com Overall I believe that this book covers things that the writing courses don't touch upon because I never heard about them in the writing classes I attended This book is the perfect book for any person that wants to write a book and can also help writers already in the process that are having some problems along the way It's also a fine gift for any friend or relative that has expressed a desire to write or someone with a personality and imagination you respect that you feel should be writing a book but needs a little push or a book like this to get them started and I sincerely believe that all it takes to put out a decent book is to be full of baloney and a good typist And if you can't type there are some pretty good voice recognition programs out there and as for being full of it well I really don't know anyone that isn't Just keep in mind that even though person thinks they've never written a book they've actually been writing two of them since the day they learned how to talk and the titles of those two books are Things I Should Have Not Said and Things I Should Have Said and that means they're already authors The book also includes a special section containing some things to mention in a book that will make people think you're smart

flip to that section in the book and focus on the specific block you're struggling with. The whole point is to help you deal with the block right there and then. Examples of these thoughts are: I've been stuck for too long. It will take me forever to get back into my writing flow. I feel too much pressure. I can't start until I know how it's all going to fit together. I don't know where to start. I'm stuck in this section and I can't move on until I figure it out. Nothing is going to plan. Might as well give up. What I'm undertaking feels impossible. I feel too discouraged to continue. Do any of these sound familiar? I hope that when you're overwhelmed by any of these thoughts, you will pick up this book, get inspired, reset, and gather all your strength to jump back into the game.
