Writing Philosophy A Students Guide To Writing Philosophy Essays:

Writing Philosophy Lewis Vaughn, 2006 *Writing Philosophy A Student's Guide to Writing Philosophy Essays* is a concise self-guided manual that covers the basics of argumentative essay writing and encourages students to master fundamental skills quickly with minimal instructor input. Opening with an introductory chapter on how to read philosophy, the book then moves into the basics of writing summaries and analyzing arguments. It provides step-by-step instructions for each phase of the writing process, from formulating a thesis to creating an outline to writing a final draft, supplementing this tutorial approach with model essays, outlines, introductions, and conclusions. Skills essential to evaluating arguments, citing sources, avoiding plagiarism, detecting fallacies, and formatting final drafts are dealt with in detail. The final two chapters serve as a reference guide to common mistakes and basic skills in sentence construction, writing style, and word choice. Employing a rulebook format similar to that of the classic *Elements of Style* by Strunk White and Angell, Lewis Vaughn distills helpful writing advice into simple rules that students can easily remember and apply, and that instructors can refer to when reviewing student papers. These rules cover essay organization, sentence structure, documentation styles, plagiarism, grammar, usage, and more. Written in a clear and engaging style and incorporating samples of student writing, *Writing Philosophy* is an indispensable resource for virtually any philosophy course.
