Wtf Evolution A Theory Of Unintelligible Design:

Wtf, Evolution!? Mara Grunbaum, 2014-01-01 We all have our off days Why should Evolution be any different Maybe Evolution got carried away with an idea that was just a little too crazy like having the Regal Horned Lizard defend itself by shooting three foot streams of blood from its eyes Or maybe Evolution ran out of steam Memo to Evolution The Irrawaddy Dolphin looks like a prototype that should have been left on the drawing board Or maybe Evolution was feeling cheeky a fish with hands Joke s on you Red Handfish Or maybe Evolution simply goofed up How else to explain the overgrown teeth of the babirusas that curl backward over their face Oops Mara Grunbaum is a very smart very funny science writer who celebrates the best or really the worst of Evolution s blunders Here are more than 100 outlandish mammals reptiles insects fish birds and other creatures whose very existence leaves us shaking our heads and muttering WTF Ms Grunbaum s especially brilliant stroke is to personify Evolution as a well meaning but somewhat oblivious experimenter whose conversations with a skeptical narrator are hilarious For almost 4 billion years Evolution has produced a nonstop parade of inflatable noses bizarre genitalia and seriously awkward necks What a comedian

The Lion in the Living Room Abigail Tucker, 2017-09-05 Originally published in hardcover in 2016 by Simon Schuster

Darwin and Design Michael Ruse, 2003 In clear non technical language Ruse offers a full and fair assessment of the status of the argument from design in light of both the advances of modern evolutionary biology and the thinking of today's philosophers with special attention given to the supporters and critics of intelligent design

Design Failure Claudia N. Bachmann, 2001

Why Darwin Matters Michael Shermer, 2006-08-08 Shermer a creationist turned scientist argues that Intelligent Design proponents are invoking a combination of bad science political antipathy and flawed theology He decodes the scientific evidence to show that evolution is not just a theory and illustrates how it achieves the design of life through the bottom up process of natural selection

Not Very Intelligent Design Neel Ingram, Mark Ingram, 2018 10 amazing things concerning this book The Intelligent Designer created reading glasses so that all humans could read this book Humans need haircuts Cat hair stops growing at exactly the right length Humans have butt crack hair because the Intelligent Designer decided that your bottom would be too hygienic and too easy to clean without it Humans sometimes choke to death Dolphins don't They have a separate breathing tube Humans who seriously believe in creation theory will not enjoy this book The bit in this book about an amputee soldier who loses his second hand in a blender whilst on a bender in Bali may contain traces of fiction The bit about a poop in a public pool that leads to mass murder may not be completely true If you think God's on your side don't read this book If you think God's on Trump's side you probably won't be able to Ninety nine percent of this book has absolutely nothing to do with Trump Thank God for that

Darwinism and Design; Or, Creation by Evolution George St. Clair, 1873

Natural Design: a New Theory of Evolution Matthew Turner, 2010-08-09 An unknown banana farmer in Japan claims to have not only disproved Darwin's theory of natural selection but to have succeeded in replacing it with a stronger and more scientific one His theory of Natural Design suffers from NONE of the flaws and paradoxes that plague Darwin's theory But with no PhD to his name no eminent professors as co authors no publishing record and no association with a research institution attempts to get his work published in respected academic journals cannot get past the initial enquiry stage This work remains unseen by the academic community Read the Introduction this can be read in its entirety in the Preview and you will know this author is onto something Read Part I and you will lose all respect for the theory of natural selection Read Part II and your life will never be the same again Read Part III and you will tremble for the future of mankind The author has pledged to remove this book from circulation if anyone can prove him wrong
